Report of the Commissioners,

Appointed by the Legislature of Kentucky to Divide the Wards of the City of Louisville into Voting Precincts.

By an act of the General Assembly of Kentucky, passed and approved the 1st day of March, 1860, the Acting Mayor of the city of Louisville, John L. Heming, William P. Boone, James W. Henning, Thos. L. Jefferson, Ben. J. Adams, Thos. H. Hunt, and G. T. May were appointed Commissioners, a majority of whom shall be competent to act, to divide the several Wards of the city of Louisville (including the town of Portland) into Voting Precincts, in conformity to the act relating thereto.

The undersigned having been duly sworn now make the following report:

FIRST WARD.

We have divided the First Ward of the city of Louisville into five precincts, viz:

The First Precinct of the First Ward shall be bounded by the Ohio river on the north, Beargrass creek on the south, the center of Hancock street on the west, and the city limits on the east. The voting place of the said Precinct shall be at Gay's lumber office, on Fulton street, above Caball street.

The Second Precinct of the First Ward shall commence at Beargrass creek, and in the center of Wenzel or Braddock street, when extended, and from thence southwardly along the center of said Braddock or Wenzel street to the line of taxation, and with this line eastwardly and northeastwardly, &c., until it strikes Beargrass creek, at and about the Cut-off, and thence down the creek to the place of beginning. The place of voting shall be at Fred. Webber's, on the north side of Main street, between Buchanan and Caball streets.

The Third Precinct of the First Ward shall commence at the creek, in the intersection of Wenzel or Braddock street, and from thence southwardly along the center of said street to Market street, thence westwardly down the center of Market street to the center of Hancock street, and thence northwardly in the center of Hancock street to the creek, and with the creek eastwardly to the beginning. And the place of voting in this precinct shall be at the northwest corner of Main and Campbell streets.

The Fourth Precinct of the First Ward shall commence at the intersection of Market and Wenzel streets, and from thence southwardly along the center of Wenzel street to the center of Walnut street, thence westwardly down the centre of Walnut street to the intersection of Hancock street thence northwardly along the center of Hancock street, to the intersection of Market street, and thence eastwardly in the center of Market street to the beginning. The place of voting in this Precinct shall be at the lumber office of Daniel Laveille, on the northeast corner of Green and Clay streets.

The Fifth Precinct of the First Ward shall commence at the intersection of Walnut and Wenzel streets, thence southwardly along the center of Wenzel street to the line of taxation between the city and county, thence westwardly with the said line to the intersection of Hancock street, thence northwardly along the center of Hancock street to the intersection of Walnut street, thence eastwardly up the center of Walnut street to the beginning. The place of voting in this Precinct shall be at the northwest corner of Chestnut and Clay streets.

SECOND WARD.

We have divided the Second Ward into three Precincts, as follows:

The First Precinct of the Second Ward shall commence in the center of Hancock street on the Ohio river, and from thence southwardly along the center of Hancock street to the intersection of Jefferson street, and from thence westwardly down the center of Jefferson street to the intersection of Preston street, thence northwardly in the center of Preston street to the Ohio river, and from thence up the river to the beginning. The voting place of this precinct shall be at Hagerman's saddlery shop, on the north side of Market street, between Preston and Jackson streets.

The Second Precinct of the Second Ward shall commence at the intersection of Jefferson and Hancock streets, and from thence southwardly along the center of Hancock street to the intersection of Madison street, thence westwardly down the center of Madison street to the intersection of Floyd street, and thence northwardly in the center of Floyd street to the intersection af Jefferson street, and from thence eastwardly up the center of Jefferson street to the beginning. The voting place of this precinct shall be at Dr. Cohn's office, on the south side of Green street, west of, and next door to the corner of Jackson street.

The Third Precinct of the Second Ward shall commence at the intersection of Hancock and Madison streets, and thence southwardly along the center of Hancock street to the line of taxation of the city, thence westwardly with the said line to the intersection of Floyd street, thence northwardly along the central line of Floyd street to the intersection of Madison street, and thence eastwardly along the central line of Madison street to the beginning. The place of voting in this Precinct shall be at Chickering's, on the southeast corner of Gray and Hancock streets.

THIRD WARD.

We have divided the Third Ward into two Precincts, as follows:

The First Precinct of the Third Ward commences at the center of Preston street on the Ohio river, and from thence southwardly along the central line of Preston street to the intersection of Jefferson street, thence down the center of Jefferson street westwardly to Floyd street, thence northwardly along the center of Floyd street to the center of Market street, and thence westwardly down the center of Market street to the intersection of First street, and from thence northwardly along the center of First street to the Ohio river, and from this point up the river to the beginning. The voting place of this Precinct shall be held on the west side of Brook street, between Main and Market streets, now occupied by Baker & Rubell, and owned by Rev. Mr. Holman.

The Second Precinct of the Third Ward shall be as follows: commencing at the intersection of Market and Floyd streets, thence southwardly with the central line of Floyd street to the taxable limits of the city, thence westwardly with this line to the center of First street, thence northwardly with the center of First street to the intersection of Market street, thence eastwardly up the central line of Market street to the beginning. The voting place for this Precinct shall be on the east side of First street, between Jefferson and Green streets, adjoining the gine-house.

FOURTH WARD.

We have divided the Fourth Ward into two Precincts, as follows:

The First Precinct of the Fourth Ward shall commence at the Ohio river and in the center of First street, and from thence shall go southwardly along the center of First street to the intersection of Green street, thence westwardly down Green to the center of Third street, and with the central line of Third street northwardly to the Ohio river, and from thence eastwardly up the river to the beginning. The voting place of this Precinct shall be at Paul's carpenter shop, east side of Second street, between Jefferson and Market streets.

The Second Precinct of the Fourth Ward shall commence at the intersection of First and Green streets, and from thence shall go southwardly out the center of First street to the line of taxation of the city; thence westwardly with this line to the center of Third street, and from thence northwardly in the center of Third street to the intersection of Green street, and thence eastwardly up Green street to the beginning. And the place of voting for this Precinct shall be at the carpenter's shop of Silas Evans, on the south side of Guthrie street, between First and Second streets.

FIFTH WARD.

We have divided the Fifth Ward into two Precincts as follows:

The First Precinct of the Fifth Ward commences at the Ohio river and in the central line of Third cross street, thence southwardly along the central line of Third street to the intersection af Walnut street; thence westwardly along the central line of Walnut street to the intersection of Fifth cross street, thence northwardly along the central line of Fifth street to the Ohio river, and up the river to the beginning. The place of voting in this Precinct, shall be at the engine house, on the south side of Jefferson street, between Third and Fourth streets.

The Second Precinct of the Fifth Ward shall commence at the intersection of Third and Walnut streets, thence southwardly to the line of city taxation, and with the same westwardly, to the center of Fifth cross street when extended, or to Pope street as it now is; thence northwardly along the center of Pope to Fifth, and down the center of Fifth to the middle of Walnut, and with Walnut eastwardly, to the beginning. The place of voting in this Paccinct shall be at the school room, or dispensary, on the east side of Fourth street, between Walnut and Chestnut, in the property belonging to W. H. Stokes.

SIXTH WARD.

We have divided the Sixth Ward into two Precincts. The First Precinct of the Sixth Ward shall commence at the Ohio river, and in the center of Fifth cross street, and from thence southwardly along the center of Fifth street to the intersection of Walnut street; thence westwardly along the center of Walnut street to the intersection of Seventh street, and thence northwardly down the center of Seventh street to the Ohio river, and up the river to the place of beginning. The place of voting in this Precinct shall be in the basement of the Court House.

The Second Precinct of the Sixth Ward shall commence at the intersection of Fifth street and Walnut, thence southwardly along the central line of Fifth street to its intersection with Pope street, and with Pope street to the line of city taxation, then westwardly with the said line to the center of Seventh street, and thence northwardly along the center of Seventh street to the intersection of Walnut street, and thence eastwardly along the center of Walnut street to the beginning. The place of voting in this Precinct shall be at the Female High School building, southeast corner of Center and Walnut streets.

SEVENTH WARD.

We have divided the Seventh Ward into two Precincts:

The Fist Precinct of the Seventh Ward shall commence at the Ohio river and in the center of Seventh cross street, thence southwardly along the center of Seventh street to the intersection of Walnut street, thence westwardly down the center of Walnut street to the intersection of Tenth cross street, thence northwardly along the center of Tenth street to the Ohio river, and up the river to the beginning. The place of voting in this Precinct shall be the engine house on the south side of Market street, between Seventh and Eighth streets.

The Second Precinct of the Seventh Ward shall commence at the Intersection of Seventh and Walnut streets, thence southwardly in the center of Seventh street to the line of city taxation, thence with this line westwardly to the intersection of Tenth street, thence northwardly along the center of Tenth street to the intersection of Walnut street, thence eastwardly along the center of Walnut street to the beginning. The place of voting in this precinct shall be at John Graham's lumber office, on the northeast corner of Madison and Eighth streets.

EIGHTH WARD.

We have divided the Eighth Ward into five precincts. The First Precinct of the Eighth Ward shall commence at the Ohio river, and in the center of Tenth street, and from thence southwardly along the center of Tenth street to the intersection of Walnut street, thence westwardly along the center of Walnut street to Thirteenth street, thence northwardly along the center of Thirteenth street to Portland Avenue, where this Thirteenth street terminates; and from thence northeastwardly to High street, and the center of Thirteenth street. Thence northeastwardly in the center of Thirteenth to the central line of the Canal—and with the same, eastwardly to the beginning. The place of voting in this precinct shall be in Bettison's building on the west side of Eleventh street, between Main and Market streets.

The Second Precinct of the Eight Ward shall commence at the intersection of Walnut and Tenth street, and from thence shall run southwardly out the center of Tenth street to the line of city taxation. Thence westwardly with the said line to the intersection of Thirteenth street, thence northwardly along the center of Thirteenth street to the intersection of Walnut street, thence eastwardly along the center of Walnut street to the beginning. The place of voting in this Precinct shall be at the office of Minott & Co.'s plaining mill west side of Tenth street, between Walnut and Chestnut streets.

The Third Precinct of the Eighth Ward shall commence at the central line of the Louisville and Portland Canal, and in the center of Thirteenth street extended thereto; thence southwardly with Thirteenth street to High street, and from thence extend this central line across to Portland avenue so as to strike the central line of Thirteenth street which terminates in the avenue; thence southwardly out the central line of Thirteenth street to the line of city taxation; thence westwardly with the said line to the intersection of Fifteenth cross street; thence northwardly along the center of Fifteenth street to its termination in Portland avenue; thence with a line northeastwardly over to High, and in the center of Fifteenth street; thence northwardly with the center of this Fifteenth street to the central line of the canal, and thence eastwardly with the canal line to the beginning. The place of voting in this Precinct shall be at the engine-house on the north side of Jefferson street, between Thirteenth and Fourteenth cross streets.

The Fourth Precinct of the Eighth Ward shall be bounded as follows:

Commencing at the central line of the canal, and at the intersection of Fifteenth street, extended northwardly as defined on the western boundry of the Third Precinct, thence southwardly with the western boundry of the Third Precinct of this ward to the line of city taxation, thence with the various lines of city taxation westwardly and northwestwardly to the intersection of the Salt River Road and Portland Avenue, thence down the avenue to the center of Sixth cross-street, thence northwardly in the center of said Sixth cross-street to the center of High street, thence down the center of High street to the intersection of Lock street, and thence southwardly along the center of Lock street and the central line of Lock street, continued until it strikes the central line of the canal, and up this line to the beginning. The place of voting at this precinct shall be at Benj. F. Avery's plow manufactory, on the northwest corner of Main and Fifteenth streets.

The Fifth Precinct of the Eighth Ward shall be all the remaining part of the Eigthth Ward within the limits of city taxation, and is described as being between the central line of the Louisville and Portland Canal and the Ohio river; and also all that part of Portland within the line of city taxation west of Lock street, west of Sixth cross street, and west of Salt River Road, and more definitely described in a part of the western boundary of the Fourth Precinct. The place of voting in this Precinct shall be at the Engine-house, on the south side of Market street, between Commercial and Grove streets, Portland.

Signed by the Commissioners, this 29th day of May, 1860.

THE SUNDAY COURIER.

As our Sunday edition will hereafter be delivered only when expressly ordered, those who want it should leave their names at our counting-room or with the carriers.

Advertisers who wish their advertisements inserted in the SUNDAY COURIER, which is read and seen by everybody, are requested to send in their favors as early as convenient.

Advertisements of regular advertisers will be inserted on liberal terms.

The carriers who purchase their routes, will furnish the COURIER to their subscribers, every day, Sunday included, for 15 cents per week. Subscribers to the SUNDAY COURIER alone, will be supplied by the carriers at 15 cents a month.

Weekly Courier.

Our mammoth enlarged Weekly, containing all the commercial, financial, political, and miscellaneous news of the day, is issued this morning, and can be had at the clerk's desk, enveloped ready for mailing, at five cents per copy.

THE EVIL DAY HAS COME!

ANOTHER SMASH UP.

MORE SECESSIONS!

National Democratic Party Dissolved!

The grand catastrophe, so long feared, has at last come. The Douglasites have accomplished the object for which they have so long and so earnestly labored—the destruction of the National Democratic party. The adoption of the majority report, without material alteration, was an outrage on the dignity and rights of the South that could not be brooked, and the result was the withdrawal of Virginia and other Southern States from the Convention. The late hour at which we write this (2 o'clock A. M.) precludes further comments, and we have only to refer the reader to the telegraphic dispatches in another column for the full particulars.

IMPORTANT TO STEAMBOATMEN AND OTHERS USING MACHINERY RUN BY STEAM.—We publish in another column a decision of the United States Circuit Court for the Southern District of Alabama, by which it is settled that the use of the metallic packing for steam engines, is an infringement of a patent right granted to one Cox, in 1849, and transferred to Wm. J. Mathews, of Mobile, in 1859. Those who have this packing in use will, perhaps, consult their own interest, by calling on Mr. Hosea Shaw, at Dennis Long's Union Foundry, in this city, who is the authorized agent of Wm. J. Mathews. j21 dtf

☞ The commencement exercises of Georgetown College occur next Thursday, when seventeen addresses will be delivered out of a class of thirty-six. The annual exhibition of Science Hill Female Seminary takes place Wednesday.—Examinations are now going on at both institutions. The baccalaureat sermon will be made to-morrow by Dr. D. R. Campbell, and on Tuesday and Wednesday nights addresses will be delivered before the Alumni and Literary Societies. Georgetown will be quite attractive during the next week.

ST. JOHN THE BAPTIST'S DAY.—The birth of St. John the Baptist, June 24th, will be commemorated in Christ's Church by the proper service for the day, and by a collection for the orphans. In the evening the Rector will continue his Lectures on the Christian Creed. The public is invited to both services.

LADIES BEWARE!—A lady who moves in the first circles of society in this city had her face sadly discolored, a few days since, from the combined effects of fluid whitening and artesian water. It appears that she went to the well and bathed, and, after leaving the delicious bath, she found to her horror and amazement that her face was as black as an Ethiopian's.

MR. TEN BROECK.—This gentleman is the widest known American now in Europe, but we understand he is likely to be eclipsed, for they have in California a Mr. *Eleven* Broeck, who is said to be one degree above the celebrated turfite in all those excellences that have made him distinguished.

PROBABLE FATAL AFFRAY.—A difficulty occurred at the Commercial Hotel, yesterday morning, between Mr. Redman, the clerk, and a boarder named Wagner, in which the latter was so severely cut about the head and shoulders that it is thought the wounds will prove fatal.

☞ The Postmaster General has established new postoffices in this State at Geneva, Henderson county; George's Creek, Lawrence county; Argytile, Greenup county; Oakland Mills, Nicholas county; Antioch, Washington county, and Fort Jefferson, Ballard county.

FAILURES.—We received no St. Louis papers last night, either by mail or express. From some cause or other our Baltimore letters, which come by Adams' great express, failed to reach us yesterday.

☞ We have heard it intimated that Thos. S. Page, Esq., of Frankfort, will be the Constitutional-Union-K.N.-P.U. candidate for the Appellate Clerkship. If he is, he will be whipped a good deal worse this time than he was by Grant Green last August.

☞ See notice of Masonic Pic-nic.

ARRESTED.—John Donnivan and Dennis Collins have been arrested at Cincinnati as the supposed murderers of the late Professor Crawley.

☞ Hon. Thomas C. M'Creery, of Daviess county, one of the most eloquent Democratic orators in the State, was in the city yesterday.

☞ The Fifth Annual Fair of the Harrison County Agricultural Society will be held at Cynthiana, commencing on the 8th of September and continuing four days.

Clerks.

We constantly hear of strikes and rebellion among the workmen of the different mechanical trades, and even common laborers refuse to be driven beyond measure, but will rise up and protest against oppression—but the patient, toil-worn and weary occupant of the desk seldom gives voice to complaint, and toils on in silent suffering. The pale and anxious faces which one meets hurrying by, over pavements "hot as burning plow-shares," to their fatal posts, tell but too surely that unremitting work

—— is wearing out
Human creatures lives.

Pens, that have traced the ponderous ledger, have likewise traced lines that have set the world aglow—and a clerk of the India House gave to literature the essays of the gentle Elia. The most important reforms in the Chancery of England owe their origin to an humble clerk, and Granville Sharp exposed the horrors of the middle passage, and gave efficient aid to the suppression of the African slave trade. The virtues of this class have always been gentle and unobtrusive, and they have suffered silent wrong so patiently, that active philanthopists have scarcely discovered anything in their condition requiring reform. But we know better, and we know many a successful business that owes its success to "confidential clerks," for the "head of the house" has capital, but little capacity, and money but very indifferent morals; and yet they enjoy a wide reputation and reap a rich harvest from the brains of others, and these others they give but a meagre support, and would not have them seen in their drawing-rooms and never invite them to a little fresh air at their country seats.

Our object in commencing this paragraph was to suggest some relaxing, and a diminution of the working hours of business houses during the hot summer months, and we think it will be alike advantageous to all parties. Let the clerks have a few hours in the afternoon, to escape from the heat and noisome atmosphere of the city into the green fields, and breathe again the free air of the country; for most of them fed upon it in childhood, and it would have a life-giving and health-restoring influence upon their jaded spirits.

The reflection will come to the wealthy employer, as he luxuriates at the watering place, or in his suburban villa, that his dependents likewise can enjoy the evening breeze, that cools and refreshes his parched and aching brow.

More Richmonds in the Field.

Our advertising columns this morning contain the announcements of Brent Hopkins, of Oldham, and Clinton McClarty, of Daviess, as candidates for Clerk of the Court of Appeals. Better men, better Democrats, or gentlemen better qualified for the position, are not to be found in the State. We only regret that all the aspirants cannot have the place. But while the gentlemen named are our warm personal and political friends, and we would not willingly omit an opportunity to aid them in their aspirations, yet the peculiar circumstances existing just now, constrain us to believe that the nomination and election are due to Col. Bolling over and above all others, and in this position we feel confident we will be overwhelmingly seconded by the Democracy of the State.

As the time previous to the election is so short, we had hoped that the candidacy would have been given to Bolling without contest. The Convention will have to decide the matter, and in the correctness of its decision, if it is at all fully and fairly constituted, we have every confidence.

THEATER.—To-night is the last night of the season, and the benefit of Mr. Marcus Elmore, the leading man of the theater. Mr. Elmore is deservedly one of the most popular, and by far the best leading man we have ever had with us. There is no member of the company who has had a more difficult line of business to fulfill, and we can truly say, that in whatever character he has been cast, he has given it careful consideration, and in no one instance has he been at fault. Conscientious, pains-taking, and careful in even the most unimportant part which he has been called upon to sustain, he has won the respect and regard of the habitues of the theater, one and all. His style of acting, quiet and finished, is one that never fails in begetting an ever increasing popularity. In the various characters which he has been called on to delineate, during an unusually long season, there are many in which he has fairly divided the honors with some of the great stars of the profession. It will not be readily forgotten that Mr. Elmore, as Ingomar, excited more attention and interest than the truly great actress, Miss Davenport, in her effective part of Parthenia. As John Mildmay, Chateau Renaud, and many other creations of the drama, which we need not mention, Mr. Elmore stands almost unrivalled. We hope that for the praiseworthy efforts which this estimable actor has made during the past season, and in recognition of his merits as an accomplished artiste, that he will be greeted with an overflowing house.

CHEAP INSURANCE—CONTINENTAL INSURANCE COMPANY, 18 Wall Street, New York.—The next dividend declared by this Company to the policy holders, will occur on the 1st July, 1860, and will be equal to any former dividend, not less than 50 per cent. on amount of earned premium. The Company will also pay 6 per cent. interest in cash in the scrip dividends of 1857, '58, and '59. It is calculated that the scrip of 1857 will be paid in full on 1st July of next year (1861.) The Company is now in possession of a cash capital and surplus, on 1st June, amounting to the sum of $946,573, which is an increase or accumulation since 1857, of $317,715.

The Continental takes risks on buildings, merchandise, household furniture, rents, leases, and other insurable property at the same rates charged by other solvent institutions, with the additional advantage and inducement to policy holders of participating in the profits of the Company, thereby reducing the cost of insurance one-half. The agents of this city, Messrs. S. Kennedy & Bro., are prepared to issue participating policies to any one wishing to insure.

ANTIQUARIAN RESEARCHES IN KENTUCKY.—A meeting of the friends of science is called for this evening in the reception room of the Galt House. We trust that all citizens disposed to promote this important scientific movement will attend the meeting. Some important facts will be developed, and much information communicated on a subject concerning which so little is known by the public generally. The present movement by the American Association for the Advancement of Science—the only scientific body with a national reputation in this country—to explore our local antiquities, is one eminently deserving the attention of all intelligent citizens. The proposed meeting is to secure some action for coöperating with the Scientific Association.

☞ The Cincinnati Enquirer of yesterday heads its Baltimore intelligence as "Cheering News." The news was that the Convention would in all probability break up, and the great Democratic party be numbered among the things that were. That is really what the Enquirer and the Douglasites have long been laboring for. They do not care one jot for the integrity of the party if their favorite can be advanced.

M. DE HUC.—The Paris papers notice the death of this distinguished oriental traveler and Jesuit Missionary—his travels, published some years ago, was a most vivid and interesting account of the interior of Thibet, Cochin-China, and of Pekin and China proper. His books had a most extensive circulation, and were translated into almost all the languages of Europe.

OBTAINING GROCERIES UNDER FRAUDULENT PRETENSES.—Deputy Marshal Murray arrested yesterday Joseph and Hudson Lawson, charged with fraudulently obtaining $94 worth of groceries from W. N. Mayfield.

FATAL ACCIDENT.—Mrs. E. T. Keel, wife of a grocery merchant, of Memphis, was killed on Monday by attempting to jump from her carriage, while the mule, having become frightened, was running away.

Woodlawn Trotting Races.

FIFTH DAY.

Yesterday the atttractions at Woodlawn drew a large crowd, including many of the fairest belles of Kentucky. The track was in splendid condition, and the races were very exciting. For the first race there were five entries. Lady Woodlawn, Flora, Dick Turpin, Kate C., and Capt. Megowan. When the bell rang the horses were brought out, harnessed, and trotted up and down before the stand several times, and when called up for the start it was discovered that Capt. Megowan had cut his right fore foot badly, and permission to draw him was granted by the judges.

FIRST RACE.

For the first heat the horses started well together, and it was well contested by Lady Woodlawn, Flora, and Dick Turpin—Kate C. being left a long way behind. After making the first turn, Lady Woodlawn had the lead, which she maintained throughout the heat, coming in winner, Flora second, Dick Turpin third, and Kate C. distanced. The following is the time: First quarter 39; half mile in 1:17; and the heat in 2:37½.

For the second heat there were but three horses started, Lady Woodlawn taking the lead, Dick Turpin and Flora contending for the second place. Lady Woodlawn came in winner, Flora second, and Dick Turpin third.

After the second heat, it was seen that Dick Turpin had the thumps, and he was drawn, leaving two to contend for the third heat. Flora got the start, Lady Woodlawn behind. Before reaching the first gate, Flora broke, and Lady Woodlawn went ahead and kept the lead, winning the heat and purse by three lengths.

The second race was pacing, mile heats, for a purse, with three entries, viz: H. Duncan's Davy Crockett, W. Petty's White Stockings, and J. A. Hammer's Capt. Kenny, of Memphis. Davy Crockett was decidedly the favorite at odds against the field, but Capt. Kenny had his backers, who bled freely at the odds.

After three false starts the horses got off well together, Crockett in the lead, Capt. Kenny second, and White Stockings bringing up the rear. Capt. Kenny broke on the first turn, and White Stockings went ahead of him. Before reaching the home stretch White Stockings and Capt. Kenny closed up the gap between them and Crocket, but were unable to collar him, and he came in winner of the heat; White Stockings second, and Capt. Kenny third. The following was the time: Quarter 35, half mile 1:12, and the heat in 2:28½.

For the second heat Crockett got the lead, Kenny second, and White Stockings third, but before reaching the quarter-post White Stockings passed Capt. Kenny and caught up with Crockett, amid the shouts of those who had purchased him in pools at ten to one; but Davy soon shook him off, and again took the lead, which he maintained, coming in winner of the heat and purse; White Stockings second, and Capt. Kenny distanced. The following was the time of the last heat: Quarter pole 36, half mile 1:12½, and the mile in 2:25½. We add the

INCREASE OF RAILROAD ACCOMMODATIONS.—No revolution has taken place in any department of human progress more thorough or with more benefit to man than in the facilities for travel and transportation offered by railroads; and a recent improvement in this respect consists in the multiplication of *night* trains. There are a large class of every business population that cannot spare the time in daylight, and by this new arrangement they are enabled to transact double the amount of business, and without the loss of rest and sleep, which is so necessary for men in active employment. Between New York and Philadelphia the night trains carry double the number of passengers as those which pass over the same roads in daylight. So of other roads. Passengers can leave here at seven o'clock P. M., have a comfortable sleep, after they leave Seymour about ten, and take an early breakfast at St. Louis; and they can return the next night, and will be away from their business only one day. So likewise to Nashville, and it is a matter of regret that there is no proper connection of this kind with Cincinnati, whose business relations with Louisville are very intimate. If there was a connection made at Lexington between the two roads, the thing could be done and passengers *sleep through*. It is desirable in every respect, and the railroads would find profit in doing it. The Lexington railroad is most admirably managed, and its finances make a most satisfactory showing; but a slight infusion of the progressive spirit of the age into the management would do it no harm. The same number of trains run upon it now as at the opening of it, although the population of this city has largely increased, and so of the country through which it passes. The public require this accommodation, and we hope to see their wishes complied with. And this would supersede the necessity of another road on a more direct route, which must, however, be built, unless the travel between here and Cincinnati is better accommodated.

A DISAPPOINTMENT—THE OLD STORY.—A few days since, one of a merry party of Louisville clerks, who were traveling on a Southern steamer, met with an adventure and disappointment. At Natchez a young and very handsome woman was escorted on board by the polite clerk. After making her toilet, she appeared in the ladies' cabin decked in smiles, beauty, silk, and ribbons. The clerk aforesaid, himself a stylish man, perceived that she was accomplished and highly educated, and became so much smitten that he soon commenced wooing her in the dulcet strains of love. His intentions were honorable, and he congratulated himself that he, lucky Louisville clerk, had won a prize that any man would be proud to wear. But his hopes were soon dissipated. A short time before the boat arrived at this port she intimated a wish to stop at the same hotel with him in the capacity of wife! It was a "stunner." The young woman related the old story: She loved, was confiding, and fell a victim to the wiles of a seducer. And she was then flying from home to commence a life that of all is the most wretched to a woman. The clerk was proof against the arts of the fallen beauty, for he slipped away from her as soon as the boat landed. The pretty woman, however, soon found a friend that was not sinproof.

A REGRET.—We have tears to shed and are shedding them now, for alas! our friend has deserted us—he who came at stated intervals and removed the mountains of garbage from under our window, has left us, and we fear forever. We saw him at a great distance up the street, but he no longer regards us, for he has been frightened away—his instinct told him that the gutter beneath us would be certain death to his porkship if he unwearily poked his nose in it, and he fled in terror from our neighborhood. Although of oriental origin, we had become to regard this huge swine with favor, and even with some degree of affection, and could scarcely believe he would forsake us; but he had good cause, for certain death awaited him in our vicinity, and he has gone to other piles of garbage, with which the whole street abounds.

Oh! for the luxury of one draught of odor from the skunk; it would be a relief to our olfactories. One drop from this infernal pool would be certain death to animal life; and the Camanches, who are now preparing for war, could poison the arrows of all their braves from it.

☞ Judge Longstreet, of Georgia, has been appointed by the President to represent the American Government in the Commercial and Statistical Convention which is to meet in London on the 16th of July next. This is a well merited compliment to one of the ablest and most eminent sons of the South.

Union Men Preparing to Desert.

Instead of extending its sympathies over the difficulties in the Democratic party, the Journal would do well to direct its attention to its own ranks, and stop the threatened desertion of its friend to Douglas. In the special dispatches of the New York Tribune, we find the following:

> A number of South Americans, from Kentucky and other States, are here lobbying for Mr. Douglas, intending to bolt Messrs. Bell and Everett, if he is nominated.

The New York Times' correspondent says:

> Some of the Bell and Everett leaders, from New York, are here, endeavoring to patch up a fusion ticket with the Douglas faction, by which they hope to succeed. They are ready for any combination by which Mr. Lincoln can be embarrassed and their own interests protected by a sale like that of '56.

The special correspondent of the Cincinnati Enquirer says:

> The Americans are strongly represented from Southern States, and many of them have bet largely on Douglas.

The Enquirer doubtless means Col. Blanton Duncan, the Opposition leader in this city, and the special correpondent of the Journal. Is our neighbor prepared to bid him good-bye, or to follow suit?

Notice to Kentucky Democratic Exchanges.

We are requested to ask every Democratic paper in Kentucky to announce, from now until the election, the name of Col. R. R. BOLLING, of Boyle, as a candidate for Clerk of the Court of Appeals, to fill the vacancy occasioned by the death of Rankin R. Revill.

☞ The Henderson Reporter, of Thursday, contains a correspondence between W. S. Elam and Edgar P. Barbour, Esqrs., growing out of some strictures made on the former's testimony by the latter gentleman in a speech before the Court. Through the intercession of Hon. Archie Dixon and Ben. P. Cissell, Esq., the matter was amicably and honorably adjusted after the parties had gone to Evansville to fight a duel.

Commencement Exercises at Eminence College.

EMINENCE, KY., June 22, 1860.

Editors Louisville Courier: The commencement exercises of Eminence College closed last night. Both teachers and pupils acquitted themselves with great credit, and to the entire satisfaction of the largest audience I ever saw in Eminence. The fact is, the audience was so large each night that your correspondent could not get in the house, and if he did he was ousted by some lady before the performance commenced. I have heard all those who had an opportunity of seeing and listening to it, pronounce it unexceptionable. Seven young ladies graduated with great honor—Miss Florence Crutcher of Frankfort, Miss Kate Dodge of Louisville, Miss Henrietta Howe of Paris, Miss Rebecca Hodges of Xenia, Ohio, Miss Harriette M. Stone of Bloomfield, Ky., Miss Eliza A. Turner of Paris, and Miss Ianthe Willis of Louisville. I hope the young ladies of Eminence College will pardon me for not making for them a more detailed report, but they did not provide a seat for me or place me in a position where it would be possible to take notes.

Respectfully, GLENDOWER.

Letter From Clinton McClarty, Esq.

OWENSBORO, June 22, 1860.

DEAR SIR: Permit me through your columns to announce to the people of Kentucky, that I am a candidate for the office of Clerk of the Court of Appeals, to fill the unexpired term of the late Rankin R. Revill. I possess the constitutional requirements, and having served the greater portion of my life in circuit and county court clerks' offices, can claim at least the merit of experience. I dislike to speak of my own qualifications, and hope that my acquaintance is sufficiently extended to render it unnecessary.

The Central Committee of the Democratic party has issued a call for a convention, to meet in Frankfort on the 18th day of July next, to nominate a candidate. As the office is of paramount importance, I trust that there will be a full representation of all the counties of the State, so that the action of the convention will reflect the will of the people. Should the choice fall upon myself, or another, I will be satisfied. If nominated and elected, I pledge myself to an honest and faithful discharge of duty.

Respectfully, CLINTON McCLARTY.

POLICE COURT.

GEORGE W. JOHNSTON, JUDGE.

FRIDAY, June 22, 1860.

SOLITARY AND ALONE.—Wm. Henthorn was the only person on the bench this morning charged with drunkenness. He gave bail in $100 to be of good behavior two months.

ABUSE OF HIS FAMILY.—Ed. McDermott was arraigned for abusing his wife. The case was dismissed.

ASSAULT WARRANT.—Michael Bilner was arraigned for assaulting Julius Haurst. Witnesses were sent before the Grand Jury. Geo. Ernst, John Densel, and Bernard Kline were also arraigned, charged with assaulting Jake Aslove and W. M. Duncan. The case was continued.

PEACE WARRANTS.—A peace warrant, sued out by Lydia Parks against Edward Parks, was dismissed, and a peace warrant sued out by Edward against Lydia was also dismissed.

THE ABSCONDED POSTMASTER.—The following letter from Havana, June 3d, conclusively shows that Fowler is there, and not at Pike's Peak, as the telegraph reported yesterday:

> We had only three ladies on board and six gentlemen, and among the latter was the late postmaster of New York, Mr. Fowler. He called himself "Mr. Potts," while on board, and appeared quite sociable. After arriving at Havana, he called on Mr. Helm, our Consul, told him who he was, and asked him if he should inform me. The Consul replied in the affirmative. So "Mr. Potts" called and informed me. He also informed me that Mr. Helm and myself were the only two persons in Cuba who knew who he was; but at this present writing many persons know him and all about the affair. I should have said that he came on board the Moses Taylor at Sandy Hook, from a steamtug, having left the city the night previous. What his future intentions are I do not know.

A GREAT EVENT IN THE SPORTING WORLD.—The race announced to take place in Memphis, in October next, between the two wonderful racers Dan. Boone and Planet, has, by mutual consent, been "declared off." In lieu of that, a match has just been consummated—through our friend Colton—to come off over the Fashion Course, Long Island, on the 25th day of next September, between the owners of Congress, Daniel Boone, and Planet, in which these horses are to run at four mile heats, five thousand dollars entrance, with five thousand added by the proprietor. From this it will be seen that the owners of the horses stake but five thousand to win fifteen thousand dollars.—[N. Y. Dispatch.

SINGULAR SUICIDE.—A man named Dean Gilbert, living in Prescott, Massachusetts, committed suicide on Sunday night, in a very singular manner. He balanced a rock, weighing nearly a ton, and fastened it up with a piece of board, and after he had crawled under, kicked the board out, and the rock fell, crushing him to death. He was a temperate man, in comfortable circumstances, and fifty years of age.

DOING.—Here is a rhymed modern instance of an "old saw:"

'Tis a very ancient saying,
Time till now has proved it true;
"Do unto all your neighbors
As you would have them do to you."

But another saying now prevails,
Of an entirely different hue;
"Be sure you do your neighbors,
Or they'll certainly do you."

THE CORN CROP.—If the season should continue favorable, the corn crop of this county will be the heaviest produced for many years. There was an unusual breadth of ground planted, chiefly on account of the failure of so large a proportion of the wheat fields. The crop is very promising. The stand is good, the color a deep rich green, and the weeds well kept under.—[Paris Citizen, 22d.

☞ The bodies of three children were recently found in a sewer, leading from a house in Abbott street, Detroit. The drain connected with an out-house vault in which probably the bodies had been thrown. The parties who have heretofore occupied the buildings have no doubt been guilty of atrocious crimes.

TIME REQUIRED TO COUNT A BILLION.—This is a million times a million, which no one is able to count, however easy it may be to write it. You can count 160 to 170 in a minute; let us even suppose you can go as far as 200 in a minute, then an hour will produce 12,000; a day 288,000; and a year, or 365 days (for every four years you may rest a day from counting, during leap-year,) 105,120,000. Supposing that Adam, at the beginning of his existence, had begun to count, and continued to do so, and was counting still, he would not even now, according to the usually supposed age of our globe, have counted nearly enough. For to count a billion, he would require 9512 years, 34 days, 5 hours and 20 minutes, according to the above rule.

BALTIMORE GOSSIP.

The following "special" dispatches will be read with interest:

[From the Cincinnati Commercial.]

BALTIMORE, June 21, P. M.

The fight on the report of the Committee on Credentials is just commencing. It is known that the New York delegates have determined to vote for the majority report, and smash the machine. The explosion will come as soon as the vote is reached.

HALF-PAST ONE O'CLOCK.—The main question has now been ordered. All debate, of course, is now cut off. New York asks time to consult, which looks ominous. If she flinches from the majority report, there may be a compromise patched up, and may not be two conventions yet.

TWO O'CLOCK, P. M.—The Convention takes a recess of three hours, at the New York delegation's demand for time. The Douglasites are terrified, and fear that New York is about to desert them.

FIVE O'CLOCK, P. M.—Mr. Ludlow, of New York, comes into Convention and asks further time. The political atmosphere looks dark.

HALF-PAST FIVE, P. M.—There has been a row in the Pennsylvania delegation. Many hard words passed, and nearly led to a free fight. There is a tremendous sensation. The Convention adjourned in despair.

SIX O'CLOCK.—There has been a fight on the street between Bill Montgomery, of Pennsylvania, Congressman, and a son of Josiah Randall, about words spoken in the Convention. There is such a feeling here, that it would not be surprising if any amount of fighting, and even bloodshed, were to ensue.

SEVEN O'CLOCK.—The Douglasites are losing confidence in the New Yorkers, and are discouraged. They are going home fast. The outside pressure is turning against them. The New Yorkers have the responsibility and are afraid of it. They are the jury, and dread rendering the verdict. They would desert Douglas straightway, but the Northwestern delegates would slaughter any candidate they might put forward. The Douglas force from New England is faltering and breaking.

The confusion is inextricable—the case desperate—past all medicine or surgery.

The minority report, by Gov. Stevens, is remarkably able, and produces a great effect.

Every hour's additional delay makes trouble. The personal and factional difficulties are bitter and acrimonious almost beyond belief. The bad blood is boiling in men's veins up to fever heat.

LATEST.

TEN O'CLOCK, P. M.—The New York delegation has decided to sustain the majority report on all the material cases, admitting the Douglas delegations from Alabama and Louisiana. This will produce the long expected disruption, which must take place to-morrow morning. The Douglasites feel better.

The Seceders have engaged a Hall for their Convention.

Large numbers of the New England, New York, Pennsylvania, and New Jersey delegates go out with the South.

The double-headed mass meeting is roaring as usual.

The Douglas Convention will get through to-morrow night, or Saturday morning.

The Yancey Convention will conclude its labors Saturday night.

[From the Cincinnati Gazette.]

BALTIMORE, June 21.

HALF-PAST TWO O'CLOCK P. M.—I judge, from remarks which the Western Douglas men have made to me this morning, that the Douglasites are beginning to feel shaky in the knees, and cast about for a new man.

Dickinson, of New York, and Pearce, of Maryland, are urged—Pearce quite warmly.

The majority by which the Credential Committee voted to adopt the majority report was not in each case fifteen to ten, as I stated yesterday, but varied on different propositions.

EVENING.—To-day's work has demonstrated only this: That New York has not determined how to vote.

On the adjournment to-night I heard a knot discussing the propriety of outsiders calling a Convention, nominating Douglas, and going home. They think the Douglasites in the Convention would join in such a movement to the extent of making the nomination. Probably New York will make up their mind by to-morrow, and then work will really begin.

MIDNIGHT.—New York has resolved by various votes, ranging from 42 to 28 down to 39 to 31, to go the majority report. This grows out of railroad arrangements between Dean Richmond, as President of the New York Central railroad, with the Douglas managers who control the Illinois Central and Michigan Southern.

Having made a hard bargain with these, Dean has turned over the eight votes he holds in his breeches pocket, and turned the scale in favor of Douglas. As a consequence, the majority report will be adopted to-morrow morning, and the biggest kind of a bolt will ensue. The seceders have already engaged the Maryland Institute Hall in anticipation of the result.

The following will go with the South from the North:

Maine, 2 delegates; Massachusetts 9, Connecticut 3, New York 31, Pennsylvania 35, New Jersey 11, Ohio 5 or 6.

Nearly the whole delegations from all the Southern States will secede. You will thus perceive the party is irretrievably smashed to atoms.

The excitement to-night is intense, and not less than 10,000 people are in Monument square, listening to speeches from the seceders and the Douglas men—the former having possession of the Gilmore House, and the latter the Reverdy Johnson House, which are contiguous buildings.

The Douglas men tried a short time ago to drive off the Southerners, but the latter rallied with loud cries of "Rally, South," and soon drove the Douglasites back. The outsiders are now two to one for the seceders.

BALTIMORE, Thursday, June 21.

In relation to the difficulty between Mr. Hooper and Col. Hindman, the following statement, published by Mr. Hooper, will appear in the morning papers:

TO THE PUBLIC: In the room of the Committee on Credentials, on Tuesday last, Colonel Hindman, in the presence of that Committee, while it was in session, stealthily struck me a blow, and instantly retreated across the room, drawing his pistol, as the public has already been informed by the press of the city. I herewith present the following correspondence:

[Note No. 1.]

HON. T. C. HINDMAN—*Sir:* I will be at your room at five P. M., to hand you a note from William M. Hooper. Very respectfully,

[Signed.] DAVID C. CROSS.
BALTIMORE, June 20.

[Note No. 2.]

HON. T. C. HINDMAN: I left at your room a note saying I would call on you at five P. M. to hand you a note from William M. Hooper. On calling I found you was not in. I will call again at nine P. M. Very respectfully,

[Signed.] DAVID C. CROSS.
BALTIMORE, June 20.

[Note No. 3.]

ROOM 15, GUYS, June 20—7 P. M.

COLONEL D. C. CROSS—*Dear Sir:* I have just come in, and find in my room your two notes of to-day. Jilson Johnson is authorized to act for me in relation to the matter you speak of, and you will, therefore, please see him on the subject. I would remain to say this to you, instead of writing it, but have an indespensable engagement for the hour you name.

Yours, very truly, T. C. HINDMAN.

[Note No. 4.]

J. P. JOHNSON—*Sir:* Colonel Hindman, in answer to my two notes, refers me to you. When and where can I see you?

Very respectfully, D. C. CROSS.
BALTIMORE, June 20, No. 231 Pratt street, corner Sharp street.

Note No. 5.]

COLONEL D. C. CROSS—*Dear Sir:* Your note has just been handed to me. I will be pleased to meet you at room 179, Barnum's Hotel, at nine o'clock, in the morning, 21st inst.

Respectfully, yours, J. P. JOHNSON.
BALTIMORE, 10 K-street, at night.

[Note No. 6.]

HON. T. C. HINDMAN—*Sir:* My friend, Col. Cross, calls to demand, in my name, satisfaction for the blow I received on yesterday.

Very resp'ly, WM. M. HOOPER.
BALTIMORE, June 20.

[Note No. 7.]

BALTIMORE, June 21.

COL. D. C. CROSS—*Dear Sir:* The note tendered me, through you, from Mr. Wm. M. Hooper, I am authorized, on the part of my friend, Col. Thomas C. Hindman, to reject, Col. Hindman not considering Mr. Hooper his equal; at the same time, he desires me to say he entertains the highest personal regard for you, and intends no disrespect toward you in refusing to receive the note. With the highest regards, I am respectfully yours, &c., J. P. JOHNSON.

It will be seen that Mr. Hindman has denied that redress which all gentlemen are entitled to for so great an offense, stating, through his friend, Mr. J. P. Johnson, that we were not equal. There is a slight inequality between us in age, but none in integrity. The blow placed us equal as gentlemen, and no one but a bully would strike another a cowardly blow, and none but a coward would attempt to shield himself behind his brief and fleeting Congressional honors. He has skulked behind these honors, thereby refusing me the redress afforded by the code of honor, and he must necessarily abide the consequences of his course.

Respectfully, W. M. HOOPER.

P. S.—All papers that have published the difficulty will please also publish the above correspondence.

J. P. Johnson and D. C. Cross unite in this statement explanatory of our connection with the difficulty between Col. T. C. Hindman and Wm. M. Hooper, Esq., Mr. Cross having notified Col. Hindman of the object in view, and referred by the latter to Mr. Johnson. After an interchange of notes, arranging for a time and place of conference, we met as agreed upon.—Before any remark by Mr. Cross, Mr. Johnson said in effect that he knew Mr. Cross' intention, and that he desired to inform him in advance that as Col. Hindman's friend he could not receive any communication from Mr. Hooper, Col Hindman not recognizing Mr. Hooper as his equal. Mr. Cross replied that he had a duty to perform which he would not shrink from, and presented Mr. Hooper's note. Mr. Johnson declined to receive the note, but at the same time made a statement verbally, which he afterward reduced to writing, and delivered to Mr. Cross. (See note No. 7.) The above statement is made for the public information, with the publication of all the correspondence.

DAILY COURIER.

LOUISVILLE.

SATURDAY MORNING..............JUNE 23.

FOR CLERK OF THE COURT OF APPEALS,

R. R. BOLLING.

The Eastern Mail.

For several months past the Journal has been loud and persistent in its denunciation of the Postmaster General, for sending the Eastern mail to this city by the New Albany instead of the Jeffersonville Railroad. Although we have known these strictures to be undeserved and unjust, we have not thought it necessary to reply to them, as the facts in the case are generally well known here.

There is no question that the proper, natural, and quickest route for the Eastern mail to come here is *via* Jeffersonville Railroad, and for the Western mail *via* New Albany Railroad. But the records of the postoffice here will show that since the change from the Jeffersonville to the New Albany road, the mails have been quite as uniform and regular in their receipt here as they were previously. The following statement, furnished us by the President of the New Albany road is to the point:

From February 14 to June 15, 1860, two hundred and twenty-four trains have arrived at our depot. There have been delays of over thirty minutes and less than two hours, five times only, and over two hours, eight times only.

Of these the Ohio and Mississippi Road caused the delay five times. There was a failure at Cincinnati in delivering the mails at the cars twice, and once, at least, the mails were carried to St. Louis, and returned from there, and four times the delay has been caused by severe storms that interrupted the trains on most of the railroads. With these exceptions our trains have arrived with great regularity as much so as most of the railroads of the country.

The following card from the same gentleman, which has already been published, will serve to put the matter in a clear light:

Will you allow me, through your columns, to correct several statements made in an editorial of this morning's Journal, relative to the Louisville, New Albany and Chicago Railroad carrying the mails? Not only are many of the Journal's statements entirely without foundation, but the spirit in which they are made, demands correction and reproof.

The Journal complains that under the new time, which went into effect Sunday last, the detention—which, says the Journal, was serious before—"is even greater." It continues:

> The Jeffersonville railroad would bring one Eastern mail at half past nine in the evening, and the New Albany road brings the same mail at about nine o'clock in the morning.

The mails leave Cincinnati at 4:25 A. M. and 5:35 P. M. The 5:35 P. M. train out of Cincinnati connects with the night train at Seymour, and arrives at Jeffersonville at 12:30 midnight. The same train connects at Mitchell with the Louisville Express train, and the mail arrives at New Albany at 7:45 A. M. It is delivered at the Louisville postoffice before 9 A. M., being in as good time for business purposes as by the Jeffersonville road, which *cannot* deliver it before 1.30 A. M., instead of 9 P. M., which the Journal speaks of.

Again: the morning mail out of Cincinnati, at 4.25, is delivered by the New Albany road at 1.40 in New Albany, or, 2:30 the same afternoon, in Louisville. By the Jeffersonville road the same mail would be delivered at Jeffersonville at 12.30 P. M., at Louisville at 1.30 P. M., *just one hour* sooner. We therefore find that *one mail is delivered as soon for business purposes* by the New Albany road as by the Jeffersonville route, while the other *is only one hour behind!* So much for the Cincinnati mail; now for the St. Louis mail.

The mail leaves St. Louis at 7 A. M. and 7.20 P. M. The 7 o'clock mail arrives at New Albany at 7 30 P. M., while it takes until 8.30 P. M. to get it to Jeffersonville; one hour gain for the New Albany route on that mail. The 7.20 P. M. mail out of St. Louis, arrives at New Albany at 6.25 A. M. and at 12.30 P. M. at Jeffersonville, six hours and thirty-five minutes behind, and that during business hours!

Now let us see: on the Cincinnati mails, the New Albany route foots up just one business hour behind, on one mail, and even on the other. On the St. Louis mail, the Jeffersonville road is one business hour behind on one mail and *six hours and fifteen minutes* behind on the other, so that the total gain of business hours to the Louisville citizens is four and one-fourth by the New Albany route!

Now, regarding distances: The Journal says:

> The difference in route is 80 miles in favor of the Jeffersonville road.

From the distances published on the tables of the different roads we compile the following:

Cincinnati to Mitchell,		127 Miles.
Mitchell to New Albany,		61 "
Total		188 "
Cincinnati to Seymour,	87 Miles.	
Seymour to Jeffersonville,	49 "	136 "
Difference in Distance,		52 "
Instead of 80, a difference of 28 miles, one hour's time.		
St. Louis to Seymour,		253 Miles.
Seymour to Jeffersonville,		49 "
Total,		302 "
St. Louis to Mitchell	213 Miles,	
Mitchell to New Albany,	61 "	274 "
Difference in favor of New Albany route,		28 "

And now a word regarding the out mails from Louisville.

The mails going to Cincinnati or St. Louis are put upon the same train, on the Ohio and Mississippi road, whether they are sent by the New Albany or the Jeffersonville road, and arrive at Cincinnati at the same time.

The Journal concludes by stating that the mails miss every Tuesday. There is *no foundation whatever* for this statement. The Tuesday morning train was detained several hours, because the conductor and engineer, in persuance of instructions, ran with caution on account of the dreadful storm that raged during the night, thereby insuring safety to the train, mails and passengers committed to their charge.

But without knowing them all, we feel entirely assured that the Postmaster-General has abundantly good reasons for pursuing the course he has done. The officers of the Jeffersonville road are our personal friends, and we do not desire to say one word against that road or its management, but we are constrained to state that their action in regard to the mails is by no means blameless.

As at present arranged, the Eastern mail that arrives here at 3 P. M., in ample time for all Southern connections, is only about one hour behind the time of the Jeffersonville road. While the Eastern mail that arrives at 8 or 9 A. M., by New Albany, would not reach here by Jeffersonville until 2 o'clock P. M., as the latter road has no connection with the train on the Ohio and Mississippi railroad that brings it to Seymour.

The contracts for carrying the mails are for one daily mail six times a week. The finances of the Department will not permit of two daily mails, and the Louisville, New Albany, and Chicago railroad carry the mails thirteen times a week, giving a morning and evening mail to the citizens both to the East and the West. On the regular daily mail trains a mail agent accompanies the mail; on the other trains the baggage men are sworn as regular mail carriers. So far as the Louisville, New Albany, and Chicago railroad is concerned, no censure can be properly attributed to it. It has done its whole duty, and if the Jeffersonville road had gone to work properly, we have no doubt it would long since have been carrying the mails it desires.

The Douglas Party in Louisiana, by an Anti-Douglas Journal.

The New Orleans Courier thus speaks of the Douglas patry of Louisiana:

"Besides the journals in the interest of Know Nothingism, and of every combination calculated to overwhelm the Democracy, which are now supporting and upholding the cause of Douglas in Louisiana, we must mention all the psuedo-Democrats—Forneyites and Hickmanites—who have been driven into the Opposition ranks by their insatiable greediness for office.—Among these are to be found two ex-Ministers, one ex-Collector of the Port, one ex-Superintendent of the Mint, and other fishes of a similar stripe, too numerous to mention. Disappointed candidates for Surveyor, Postmaster, Port Wardens, Custom House Collector, and a whole tribe of discomfitted office-seekers have swollen the ranks. These, with their Know Nothing allies, constitute the Douglas army in Louisiana—the same which, under the banner of Wells, at the last Gubernatorial election, was signally routed and ignominiously put to flight by the Democratic cohorts under Governor Moore."

The hidden motive of this faction is then said by the Courier to be hatred to Mr. Slidell, "whose high qualities of fidelity to party and friends, whose magnanimity and generosity" the Courier eloquently depicts.

Blackberry Wine.—The Paris Citizen publishes the following recipe, which it says makes the best blackberry wine ever tasted:

Receipt for Making Blackberry Wine.—Press the berries through a seive, and while doing so, pour a little water over them, in order to get all the juice from them, then strain the juice through a flannel cloth, put three pounds of sugar to one gallon of the liquor, then put it into stone jars, uncovered or a very thin cloth over it, until fermentation ceases, which will take six or eight weeks, skim it carefully every day, or oftner, bottle and seal it up tight.

Return Mail Bags to the Postoffice.—It happens that a considerable number of canvas sacks and other mail bags, from the nature of the service for which they are used, become frequently mislaid and fall into the possession of persons who use them and neglect to return them to the Postoffice Department. By act of 31st August, 1852, it is made a penal offense, punishable with fine and imprisonment, to "steal, purloin, embezzle, or appropriate to any other than its proper use, or for any lucre or gain convey away any mailbags to the hindrance or detriment of the public service."—[Washington Constitution.

☞ The Yorkville Enquirer announces that Prof. Venable, of the South Carolina College, will leave Columbia in a few days to carry out an appointment under Prof. A. D. Bache. The locality of their operations is somewhere on the coast of Labrador.

The Two Reports.

THE MAJORITY REPORT.

The following is the majority report in full of the Committee on Credentials:

The Committee upon Credentials respectfully report: That prior to the adjournment of the Convention at Charleston, on the 3d of May last, the following resolution was adopted:

Resolved, That when this Convention adjourns to-day, it be adjourned to reässemble at Baltimore June 18, and that it be respectfully recommended to the Democratic party of the several States to make provision for supplying all vacancies in their repective delegations to this Convention when it shall reässemble.

On the reässembling of this Convention at Baltimore the following resolution was adopted:

Resolved, That the credentials of all persons claiming seats in the Convention made vacant by the secession of delegates at Charleston be referred to the Committee on Credentials, and said committee is hereby instructed, as soon as possible, to examine the same and report names of persons entitled to such seats.

By the further order of the Convention, the claims of all other persons claiming seats were also referred to your committee. Your committee found that the delegation of the several States of Alabama, Mississippi, Louisiana, Texas, and Florida had become wholly vacant by reason of the secession of the entire original delegations; the States of Georgia, Arkansas and Delaware had become vacant in part only from the same cause. In no other State had there been any secession, but individual seats were contested in delegations from the States of Massachusetts and Missouri. Aside from the above, no question touching the seats of delegates was brought to the notice of your committee. After a patient and full investigation, your committee are of opinion that the persons hereinafter named in the resolutions which are herewith submitted as part of this report, are severally entitled to seats as delegates in this Convention, and they respectfully recommend that they be so received by this Convention.

From the State of Florida no credentials of any delegates were presented to your committee. From Mississippi and Texas no contesting claimants appeared. From Alabama, Louisiana, Georgia, and Arkansas there appeared contesting claimants for all the vacant seats. Of the four votes of which the State of Arkansas is entitled, the now sitting delegates represent one vote. The seats representing the remaining three votes had become vacant by secession of the original delegates. The seats were all contested, one set of contestants consisting of six persons, and the other set of three persons. Your committee are of the opinion that all of these contestants should be admitted to seats as delegates, with power of voting, and declared in the resolution herewith reported in that behalf.

In the Fifth Congressional District of Massachusetts it appeared that B. F. Hallett and another person were appointed delegates to this Convention, and R. T. Chaffee and another person appointed substitutes; that Hallett, not being able to attend at Charleston, notified Mr. Chaffee of the fact, who thereupon proceeded to Charleston, presented his credentials and was duly admitted to his seat, which he continued to fill at the time of the adjournment of the Convention to Baltimore. Upon the reassembling of the Convention at Baltimore Mr. Hallett appeared, claimed his seat which he had awarded to Mr. Chaffee, and receiving the entrance ticket from the chairman of the Massachusetts delegation, actually took possession of this seat. Your committee are of the opinion that when Mr. Hallett had notified Mr. Chaffee that he could not fulfill his duties as delegate, and Mr. Chaffee, repairing to Charleston, had been duly accredited to this Convention, his rights to his seat became absolute, were not subjected to be superseded at the pleasure of Mr. Hallett, and that Mr. Chaffee is now the rightful delegate to this Convention.

In the Eighth Electoral District of Missouri, the facts are precisely parallel to the above Massachusetts case, the only difference is in terms, Johnson B. Gardy having been elected delegate and John O'Fallon, Jr., having been elected alternate. Your committee, for the reasons above stated, are of opinion that Mr. O'Fallon is now the rightful delegate. In regard to the contesting claimants from Georgia, your committee have to report that the evidence adduced before your committee by the respective parties presented a great variety as well as complex facts and questions touching the right of either party to seats. Your committee, in attempting to solve these difficulties, encountered embarrassments on every hand. After a most patient consideration of the whole matter, it seemed to your committee that the only way of reaching a satisfactory adjustment is to admit to seats both delegations, with power to each of said delegations to cast one-half of the vote of the State in the manner expressed in the resolutions herewith submitted.

All of which is respectfully submitted.

(Signed.) JOHN M. KRUM,
Chairman.

THE MINORITY REPORT.

The following are the minority resolutions offered by Mr. Stevens, of Oregon:

To the President of the Democratic National Convention: Sir: We, the undersigned, members of the Committee on Credentials, feel constrained to dissent from many of the views and a large portion of the action of the majority of the Committee in respect to the rights of delegates to seats, referred to them by the Convention, and do respectfully recommend the adoption of the following resolutions:

1. *Resolved*, That B. F. Hallett is entitled to a seat in this Convention as delegate from the Fifth Congressional District of the State of Massachusetts.

2. *Resolved*, That Johnson B. Gardy is entitled to a seat in this Convention as a delegate from the Eighth Congressional District of the State of Missouri.

3. *Resolved*, That Jas. A. Bayard and Wm. G. Whiteley are entitled to seats in this Convention as delegates from Delaware.

4. *Resolved*, That the delegation headed by R. W. Johnson are entiled to seats in this Convention as delegates from Arkansas.

5. *Resolved*, That the delegation of which G. M. Bryan is chairman, are entitled to seats in this Convention from Texas.

6. *Resolved*, That the delegation of which John Tarleton is chairman, are entitled to seats in this Convention as delegates from Louisiana.

7. *Resolved*, That the delegation of which L. P. Walker is chairman, are entitled to seats in this Convention as delegates from Alabama.

8. *Resolved*, That the delegation of which Henry L. Benning is Chairman was entitled to seats in the Convention as delegates from Georgia.

9. *Resolved*, That the delegation from the State of Florida accredited to the Charleston Convention are invited to take seats in this Convention, and cast the vote of the State of Florida.

Signed, Isaac J. Stevens, Oregon,
A. A. Speer, New Jersey,
H. M. North, Pennsylvania,
John H. Bewley, Delaware,
E. H. Hubbard, Virginia,
R. R. Bridges, North Carolina,
Wm. H. Carroll, Tennessee,
George H. Morrow, Kentucky,
D. S. Gregory, California.

In the points of difference between the majority and minority report of the Committee on Credentials, I concur in the conclusions of the minority report in the case of Georgia, Alabama, Missouri, and Massachusetts.

Signed, Aaron V. Hughes, New Hampshire.

Supposed Suicide of an ex-Mayor of New Orleans.—The disappearance of Charles M. Waterman, ex-Mayor of the city, is the topic of intense interest. Mr. Waterman had a universal acquaintance and many warm friends. He left his residence on Thursday last, and has not since been heard of. Circumstances have since transpired to show that he was laboring under great nervous excitement, and was in deep distress of mind. A note which he left has given rise to the painful belief that he meant to destroy himself; and nothing has transpired to relieve the apprehension. When he left he was certainly in a state of distraction to give grounds for fearing the worst.

The failure of the respectable and old established firm of which he was a member, which went to protest on the day of his disapperance, was the culminating calamity to which distraction is traced. He was a man of acute sensibilities, great pride of character and position, and quick impulsiveness of action, liberal, warm hearted, and highly esteemed.

Since writing the above, we learn that, at 8 o'clock on Thursday evening, a hat was found on board the Second District ferry boat, plying to Algiers, which was this morning brought to the Second District Police Station, and is fully identified as belonging to Mr. Waterman. It was marked with his initials. Boats have been engaged, and a force employed to search the river and both banks for his body.—[N. O. Picayune, Tuesday.

Sale of Mules.—There was quite a stir among the mule feeders on Tuesday, and we hear of several sales at high prices. Col. V. M. Kenney sold to J. H. Chiles, of Fayette, 71 two year olds for $13,000 or $183.10 per head. Frank Ford sold 100, same age, to the same buyer, at $180 per head. John McClintock sold to John Evans, of Fayette, 39 at $190 per head. We also hear of a sale by Ben. B. Groom, of Clarke, of 110 two year olds at $175 per head, to Geo. Hall & Co., of the same county.

These are tip top prices, though the stock was, of course, of the first class. The market opens considerably better than it did last year.—[Paris Citizen, 22d.

Runaway Slave.—Mr. Hollis, from Boone county, Ky., was in the city yesterday in search of a runaway negro, who has been missing since Monday, and who, he states, he believes to have been enticed away by a book peddler, who was about the premises the Saturday previous. No tidings, however, could be obtained of the absconded chattels and effects, and Mr. Hollis returned home satisfied that he has been passed through upon the underground railroad.—[Cincinnati Commercial.

Dastardly.—The Manitowoc Pilot says that a German pretending to be sick went to the house of the Catholic priest in the town of Eaton, Manitowoc county. He staid there several days and was taken care of by the benevolent priest, but one morning he turned up missing. Shortly after he left, it was found that the priest's room had been entered, and $340 in cash, a gold watch, gold cross, gold finger rings, and other articles, had been stolen.

GROVER & BAKER'S
NOISELESS
FAMILY SEWING MACHINES.

New York, Oct. 21, 1859.

THE undersigned, Ministers and Laymen of the Methodist Episcopal Church, having purchased and used in our families "GROVER & BAKER'S CELEBRATED FAMILY SEWING MACHINE," take pleasure in recommending it as an instrument fully combining the essentials of a good machine. Its beautiful simplicity, ease of management, and the strength and elasticity of its stitch, unite to render it, in our opinion, a Machine unsurpassed by any in the market, and one which we feel confident will give satisfaction to all who may purchase and use it.

Great Reduction in Fancy Dry Goods.—Martin & Crumbaugh will offer from this date their large stock of fancy dress goods at a large reduction on former prices, such as Barege, Grenadine, Pineapple, English Barege, Organdy and Jackonet Robes in 5, 7, 8, 9 flounces, French Poplins and Poplinetts, Traveling Dress Goods, Embroideries and Laces, Point Lace Setts, Valencia and Point Aplique do., Real Pascher Lace Mantles, Points and Mandareens, Lace Mitts and Gauntlets, and their entire stock of Elegant Silk Robes and Fancy Dress Silks at less than the cost of importation, together with many other descriptions of Dress Goods, which they are desirous of closing out, and will do so at a sacrifice.

Their stock is very complete in all of the light fabrics for the summer trade, also one of the largest stocks of Mourning Goods in the city, with a complete stock of Domestics, White Goods and Hoisery. Purchasers will find it to their interest to call at No. 96 Fourth street.

New Goods.—Guthrie & Bros. opened this day (Tuesday) a case of new barege-angiaise and poplinettes, to which they call especial attention.

Their stock of French organdies embraces the best styles to be had in the market. Those wishing choice Dress Goods and Superior Domestics of all kinds, will call at 113 Fourth street and examine their late purchases.

Gilbert Mountain Hair Restorative.—Which has been known only in Central America where it has been used with entire success for half a century. The remarkable virtues of this preparation for recuperating and restoring the hair to bald heads, restoring it to its original color, removing the dandruff and cutaneous affection of the head, and giving a healthy tone to the scalp. For the toilet table there is nothing its equal, it having been thoroughly tested in this country by the proprietor the past two years before he could be induced to bring it before the public, and until he was thoroughly satisfied of its virtues. Abundant certificates of the highest character can be shown testifying to its unequalled virtues. It is made of roots, and is, therefore, perfectly harmless in its composition, containing no oil. When in use all other preparations should be laid aside, especially any that contain substances of an oily nature. Wholesale and retail by A. G. Schmidt, Druggist and Chemist, corner Fifth and Market streets, Louisville, Ky. Retailed by the principal druggists and merchants throughout the country. m19 deodly

A Word to the Wise.—The people are aware that D. O'Hare, No. 427 Main street, is the oldest, largest, and most experienced manufacturer of trunks and similar articles in the city. They should avail themselves of the rare opportunities afforded by Mr. O'Hare. To the country and city merchants he offers peculiar advantages in his wholesale department, while in the retail line he cannot be equalled. Whoever wants to travel, whether with a small carpet bag or a mammoth trunk, need go no further than the great Western factory of Mr. O'Hare. His manufactory is a credit to Louisville, and should meet with extensive patronage. As a matter of home pride, and to subserve economy, purchasers will consult their best interest in purchasing of Mr. D. O'Hare. Remember, that the United States Prize Medal was awarded to D. O'Hare for the best trunks made.

To the Ladies!—We invite the special attention of the Ladies to the large and attractive stock of Dress Goods just received by G. B. Tabb, corner of Fourth and Market streets. His stock of Fancy Silks has been selected with great care, and embraces a variety of new styles different from any heretofore received in the market, and having been purchased since the recent decline in Silks, enables him to offer great inducements to purchasers. He has also received Organdies, Muslins, Barege Robes, Pine Apple Robes, Grenadine Robes, Pine Apple Grenadine, Parasols, Silk and Lace Mantillas, &c. Ladies will find it to their interest to give him a call before making their purchases for the Spring and Summer. G. B. Tabb, corner Fourth and Market streets, Louisville, Ky.

Where to buy an Outfit. — M. B. Swain, Merchant Tailor, in Masonic Temple building, has in store a superb stock of Broadcloths, Cassimeres and Vestings, of the richest and most elegant styles, and suitable for the season. He is also receiving his annual supply for spring and summer wear, which is selected with especial reference to the taste of his Louisville patrons. A perfect fit guaranteed in all cases. Gentlemen's Furnishing Goods, in great variety, can be obtained at this establishment.

☞ Wherever it has been introduced, Vulcanite Base for Artificial Teeth has met with unqualified approbation. We can recommend it as possessing the following advantages over every other kind of base: lightness, cleanliness, and the superior comfort with which it is worn. Messrs. Fitz & Fulton are putting up this and all other styles of work to the entire satisfaction of all their patrons. We would say to those who are interested, call at their office on Fifth street, next door to the Cathedral, and examine specimens. All other dental operations are performed in a careful manner. j31tf

Furniture.—Wharton & Bennett keep always on hand a very large assortment of cabinet furniture of every description at wholesale and retail, cheap for cash. Their motto is quick sales and small profits. Recollect the Nos. 502 and 504, Market street, between Second and Third.

Money Loaned.—Ladies or gentlemen requiring loans of any amount on Diamonds, Plate, etc., can be accommodated by applying at the Exchange office, 456 Market street, between Third and Fourth, north side, five doors above Fourth. Tickets in the Shelby College and Havana-plan Lotteries for sale, or forwarded to any address. Prizes cashed. Office private. Business prompt, honorable, and strictly confidential. A. For House of Refuge Building.

TIME extended for sealed proposals to be left at the banking house of Shreve & Tucker, Wall street, to 28th day of June, 1860, for making and burning a million and a half of brick, more or less—viz:

The proposals to be, so much for hard burned brick per thousand.

How much per thousand for merchantable brick.

How much per thousand if made on the lands of the House of Refuge.

How much per thousand if made off the lands.

How much per thousand if delivered on the site of the House of Refuge.

For laying said brick wall, count or wall measurement.

How much per thousand laid and brick furnished, grouted.

How much for merely laying brick grouted.

About a half million to be laid this year, balance by 1st October, 1861.

Also how much per yard for excavations as per plans.

The payments to be as the brick is delivered, or laid in the wall, as the work progresses, monthly to the extent of two-thirds in cash, the remaining third to be paid in cash or bonds of the city, due and collectable from taxes in 1862.

Those who have proposed are privileged to withdraw and propose again under this extended advertisement, by calling on the President. The above by order of the Building Committee of the Board.

STEAMBOAT CONVENTION,
AT LOUISVILLE, KY., JULY 10, 1860.

In accordance with the views of many Steamboat owners and captains, in the different trades on the Southern and Western waters, it is recommended that a general meeting or convention of Steamboat Owners and Captains, of all the trades, be held at LOUISVILLE, KY., on TUESDAY, the 10th of July, 1860, to take into consideration the depressed state of steamboat interests, and to take such steps as united counsel may devise for placing those interests on a fair basis of prosperity.

For the Steamboat Captains' Union Benevolent Association of New Orleans.

OLDNER'S
DELTA EYE OPENER!
A PURE, HEALTHY, INVIGORATING DRINK.

Strongly recommended by the medical faculty, and acknowledged as superior to every other beverage ever introduced to the American public.

It is extensively used in *every circle* in the United States and Europe, and for purity and flavor, is unapproachable. It is invaluable in cases of sickness, and is peculiarly adapted for a Southern climate. As summer approaches, it is indispensable in every family, as a safe, pleasant and efficacious Tonic. The Press are unanimous in awarding this National Drink a preference over all others (See Sunday Times Courier, Atlas, Illustrated News, &c.,) and in no instance has it failed to give unbounded satisfaction. The Proprietor guarantees its purity, which is endorsed by the most eminent analysists of the day. It is sold in quart, half-gallon, and gallon bottles, by all respectable Druggists, Liquor Houses, Saloons, Hotels, &c.

NOTICE—A BOY LOST!

MYSTERIOUSLY disappeared from his boarding-house on Green street, between Eleventh and Twelfth. He was boarding at Mr. Forsyth's. He is between nine and ten years old, small for his age; has very heavy, dark hair; has very broad teeth; has two small scars on his forehead, and is pitted with the small pox; the little finger on the left hand is crooked. It is thought that a man took him from the theater on Saturday night, June 9th, and if such is the case, I would be glad if he would let me know the whereabouts of said boy, as he is my son. His name is WM. J. MILLER—his father's name is J. W. MILLER. Any one finding him will please send him to JAS. HAMILTON, or Mr. FORSYTH, Louisville, Ky.

MAMMOTH CAVE,
DIAMOND CAVE!
—AND—
Bell's Tavern, or Glasgow Junction.

BELL'S is much the nearest and best route on the Louisville and Nashville Railroad to the Mammoth Cave. Only 7 miles to the Mammoth Cave, and 1½ miles to Diamond Cave, which is immediately on the Mammoth Cave road from Bell's. Passengers for Mammoth Cave can stop at Diamond Cave without paying any additional stage fare—only paying cave fees. Visitors for Diamond Cave can go from train to Diamond Cave, and return to Bell's so as to be ready for the next train going either way.

Conveyances at all times will be ready to convey passengers to either or both Cave.

The DIAMOND CAVE exceeds anything yet discovered for beauty. The Diamond and Mammoth Cave are now the two attractive Caves of America. "The old ante-Room," the "Bell Tavern," is having additional buildings erected so as to accommodate 150 persons at one time. All who are desirous of getting good accommodations will stop at the Bell Tavern, and visit the great attractive Cave of the world. Bell's is 90½ miles from Louisville, and 94½ from Nashville. THE BEDFORD SPRINGS,
IN TRIMBLE COUNTY, KY.,
ARE NOW OPEN AGAIN FOR THE RECEPTION OF VISITORS.

The proprietor, thankful for the liberal patronage with which he has been favored during the preceding years, feel justified in saying that families in search of a healthy and pleasant summer retreat, will find at the Bedford Springs all the advantages which can be found at any similar establishment in the West. Among the improvements and additions made during the last year, are a row of new Cottages with a number of large and airy family rooms. The proprietor has also purchased the adjoining "Epsom Springs." This addition will give to visitors a greater variety in their amusements and promenades.

The Bedford Springs—which possess so many advantages, such as a perfectly healthy location, beautiful scenery, cool and invigorating air, &c., &c.—are already so well known that it is unnecessary to say any more in their praise. The proprietor will, however, assure his patrons hereby that he will endeavor to give to all his visitors full satisfaction; and as a caterer, he will not fail to provide the table with all the good things the surrounding country affords.

Passengers coming from Louisville, and going by the Louisville and Frankfort Railroad, will always find at Jericho conveyances ready for the Springs.

WOMAN'S FRIEND!
E. Clark's
REVOLVING LOOPER DOUBLE-THREADED
FAMILY SEWING MACHINE.

EVERYBODY and his wife pronounce it the best in the world. They will stich and Hem, Tuck and Fell, Gather and Embroider, with perfection, and are particularly adapted for Family use.

They will sew all kinds of goods, from the finest to the coarsest, better than any other machine extant, and may be used with excellent success in all kinds of light leather work. Any person of ordinary intelligence can in an hour learn to use them successfully. These Machines are warranted, and any person purchasing them can return them and get their money if, after a month's trial, they do not prove satisfactory.

The following are among the advantages they possess over all other Machines:

1st. They are simple, strong and durable, easily understood and managed, and not liable to get out of order.

2d. They use cotton from the ordinary spool without rewinding, saving time, trouble and waste.

3d. The stich is stronger and more difficult to rip than any other made by machinery, and is superior to the best hand sewing. The two threads are double looped into each other, and firmly tied and knotted at every stich. The principle of this stich is the same as the celebrated Grover & Baker's, with the exception, that the objectional cord on the underside is entirely dispensed with, and leaves a perfectly strong, smooth, and even seam.

4th. They sew cotton, Linen and Silk Thread equally well.

5th. They FINISH their work. There is no occasion to fasten the threads at either end of the seam, as is required by all Shuttle-stich Machines.

6th. Every Machine is made to run by hand or foot power, thus combining the advantages of both methods.

Several thousand respectable families in different places in the East, West and South pronounce this the best Machine in the world for family use, which is quite sufficient to insure an examination of our Machines.

All letters of inquiry, with an extra postage stamp, will insure a reply and a circular.

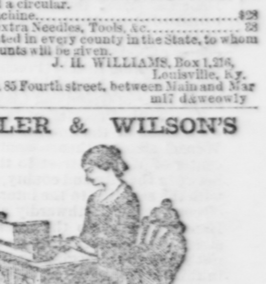
WHEELER & WILSON'S



SEWING MACHINE,
NO. 1 MASONIC TEMPLE, LOUISVILLE, KY.

WE OFFER TO THE PUBLIC WHEELER & WILSON'S IMPROVED SEWING MACHINE AT REDUCED PRICES, with increased confidence in its merits as the best and most reliable Family Sewing Machine now in use. It sews equally well on the thickest and thinnest fabrics, makes the lock-stitch impossible to unravel, with the essential advantage of being alike on both sides, forming no ridge nor chain on the underside—is simple in construction, more speedy in movement, and more durable than any other machine.

We give full instructions to enable the purchaser to sew ordinary seams, stitch, hem, fell, quilt, gather, bind, and tuck, all on the same machine, and warrant it for three years.

☞ Circulars, containing testimonials from ladies of the highest standing, East and West, giving prices, &c., will furnished gratis on application in person or by letter.

I BEG LEAVE TO INFORM ALL THOSE ENGAGED in Farming and Gardening that I keep constantly on hand a large quantity of this highly valuable MANURE, and would respectfully solicit their patronage.

In England, Germany, and the Eastern States of this country, this kind of Manure has been used for many years with the greatest success. The best way to use it is to strew from 4 to 500 pounds per acre in the fall, and plow as deep as practicable; for Trees, it is very profitable to use two pounds in the bottom of each hole; for Corn and Tobacco, put a handful in each hill; for Potatoes, Celery, &c., strew thinly in drills or furrows. One of the principal savings with this Manure is in the hauling of it—the farmer being enabled to take at one load, in a two-horse wagon, the equivalent of twenty to twenty-five loads of horse or common stable Manure.

I am prepared to furnish any desired quantity at the shortest notice.

SOLE AGENT IN THE WEST!

I take pleasure in announcing to the public that have been appointed

SOLE AGENT IN THE WEST
FOR THE SALE OF THE WORLD-RENOWNED
PIANOS
From the Manufactory of
S. & P. ERARD,
Paris, France.

THIS MANUFACTORY WAS ESTABLISHED IN 1783, and having been in successful operation from that time to the present, ranks deservedly high in the estimation of the best pianists for the character of the work it turns out. Such eminent pianists as Thalberg, Liszt, Rubenstein, De Meyer, &c., give these instruments their unqualified and unequivocal approbation and recommendation as being perfectly adapted to give to the compositions of the great masters their fullest interpretations.

These instruments have been finished with express reference to this climate and this market, and the attention of Professors and Amateurs is called to them in all confidence that better Pianos in tone, finish, action, &c., have never been seen in this part of the world. They are full 7-octaves, 3 strings to a note, rosewood cases, finished in the highest style of art, and accompanied, each one, by a cover of fine French cloth lined with chamois leather.

The public are respectfully invited to call and examine these instruments at the CENTRAL or NEW MUSIC HOUSE, No. 310 West Jefferson street (old No. 474), north side, between Third and Fourth streets.

ST. NICHOLAS HOTEL,
BROADWAY,
NEW YORK.

WHEN completed, six years ago, the ST. NICHOLAS was universally pronounced the most magnificent, convenient, and thoroughly organized establishment of the kind on this continent. What it was then it remains to-day—without a rival in size, in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad, derived from its magnitude, its superb appointments, and its home-like comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

Opium an Antidote to Stramonium and Belladonna.

The Nashville Medical Record has an account of a little girl being poisoned by eating the seeds of the Jamestown weed, *Dratura stramonium.*—The medical attendant discovered at once what was the cause of her sickness, and administered emetics; but vomiting could not be induced, the stomach having become insensible. The child was delirious, jaws rigid, pulse imperceptible and extremities cold. An emetic was administered, of half a drachm of laudanum, in a tablespoonful of water, which speedily produced a beneficial effect, finally resulting in a perfect cure. Belladonna and stramonium are antidotes to opium, and *vice versa.* This is a useful discovery, and will doubtless be the means of saving many lives.

Wash your Fruit Trees.

The present is the time to cleanse all fruit trees that are troubled with the moss or with insects. Make a good strong wash of soap-suds, and with a swab of woolen rags give the body and large limbs of the trees a good washing.—After this has been done, the bark of the trees will put on a bright yellow-green look, changed entirely in appearance to the eye, the general health of the tree being greatly improved. Potash, three pounds to a barrel of water, will also make a good wash.

Worth Remembering.

Professor Maury says that an abundant growth of sunflowers was a perfect preventive of the fever and ague at the National Observatory.—While other localities, unprotected by the sunflowers, were visited by the malaria, the Observatory enjoyed immunity from the disease. He thinks that the sunflower, in its rank growth, absorbs the malaria and purifies the atmosphere.

Aloes for Aphis.

A writer in the Cottage Gardener says that four ounces of aloes and four ounces of soft soap dissolved in a gallon of soft water will kill all the species of aphides. Dip the shoots of infested trees or plants into the wash if you can, if not, syringe them with it.

Gather up the Bones.

It was stated a week or two since that a ship load of bones—human bones—the bones of the poor fellows who took part in the memorable siege of Sebastopol, bones of Frenchmen, Englishmen, and Italians, had arrived at one of our Eastern ports from the Crimea. The mind naturally revolts at the idea of employing these sad relics of brave soldiers, or indeed of any human beings, for the purposes of agriculture, and yet the fact that we are enabled to record the importation of a cargo of bones, whether human or animal, should be hailed as an omen of good. Hitherto the contrary has been the case; ship load after ship load has left our shores to fertilize the soils of England, while our own soils and crops have been suffering. Has this unpardonable drain of so large a portion of one of our most valuable fertilizing materials been checked at last, and have we determined that henceforth (however charitably we may be disposed) England shall not have even a bone from us? Such were joyful tidings. "But why make such an ado about a few bones?" the anti-book farmer inquires. Good friend, we have not space in the brief article we purpose inditing to give you a full and satisfactory reply to your simple query. We will give you a few hints, however—a few very brief ones—which you can think over at your leisure; and if your objections to reading reliable books on agricultural chemistry are not invincible (if your inquiry has been prompted by a sincere desire to arrive at truth), they may possibly prompt you to purchase, or borrow, or beg some good treatise on bones, and con it over and over, and over again, until you are as familiar with it as with the alphabet.

Bones, good sir, are everywhere (at least in all agricultural countries) recognized as an economical and powerful manure. They may be applied to almost every kind of crop, but more particularly as a dressing for grass lands, and with decided benefit to turnip and wheat crops. Bone manure is not, perhaps, as actively stimulating as some others, but it possesses the great advantage of being both certain and lasting. From four to eight years is usually given to the period during which they act with marked benefit, but we have known instances in which their advantages were apparent for more than twenty years after their application.

Bones, when applied in small quantities, exercise a mechanical effect upon stiff soils, which is very beneficial. They render it lighter and more open, giving the atmosphere a chance to penetrate it more readily and impart its valuable fertilizing qualities to it. Besides all this, they possess great capacity for absorbing moisture from the atmosphere and holding it for the use of growing plants.

There, friend, that will do for the present. If you doubt the correctness of what has been stated, try a little experiment and satisfy yourself. Gather up the bones which have been lying around your premises from time immemorial, unsightly objects—gather them up, and be sure you do not forget the bones of the two horses and one cow which lie bleaching in the little wood at the lower end of your farm; you know precisely where they are, for you dragged the dead animals there. Perhaps you will remember it better if you are reminded of the extraordinary number of crows which fed upon the carcasses first, and upon your corn afterwards. But no matter, gather up all the bones you can find, and manage to crush them, or have them crushed. Apply some of them to your pasture land, at the rate of thirty bushels to the acre. Dig around that sickly looking grape vine in front of your house, and bury half a bushel of the bones a foot or so beneath the surface, or so that the roots of the vine will find them. When you put in your turnip crop, mark off a small portion of it and apply bones there. If, after you have done this, you have any left, put them on to a small corner of your wheat ground, and when your crops mature, compare the parts to which the gathered bones have been applied with those to which none have been given; note carefully whether your grape vine has improved in vigor and productiveness, and let us have the results. If they are favorable, we will then endeavor to point out a method of preparing bones for use, which will render them more readily available by the crops to which you apply them, and will save you the labor of crushing them.—[E. R., in Philad. Farmer and Gard.

The Wheat Crop and the Wheat Midge.

The few wheat fields that we have seen in this section of Maine look extremely well thus far. They are all of the spring wheat variety, and were sowed rather late. Whether they are destined to be all devoured by the "midge" or "weevil," as it is called, will soon be determined. Hitherto this apparently insignificant insect has baffled all the art and skill of the farmer, and come off triumphant. The variations in the temperature and moisture, and other conditions of the seasons have had more or less effect upon it. As the weather has been warm and pleasant for the last three or four weeks, and therefore favorable for the development of the crysalis in its progress of changing to the perfect, or fly state, it would not be surprising if there should be an abundance of them in our wheat fields this season; and if so, will, as in years past, do immense mischief.

They have, in a comparative sense, fairly driven our farmers from the field, and millions and millions of dollars would not repair the damage they have hitherto done, or make good the losses they have occasioned in Maine alone. Thirty years ago, wheat was among the surest and easiest crops our farmers could raise. Smut and rust were the only enemies this crop had to encounter. The first was prevented by thoroughly cleansing the seed before sowing it, and the latter by sowing early.

In some former numbers of our paper we gave most of the material facts which have been discovered in regard to the natural history of this scourge to the wheat grower, accompanied with engravings illustrative of its different stages of growth. As far as the mere history or facts of the several changes the midge undergoes, from the egg to the fly state, the researches of those who have undertaken it have been pretty thorough. The sum of it is, that the parent fly lays the egg into the bottom of the wheat blossom—that it there hatches a small worm, or maggot, about the time the kernel of the wheats gets into the milk state—that this worm pumps out the milk and pieces of the kernel for its food, and thereby prevents its filling and maturing—that the worm, having got its growth, either descends to the earth and forms a crysalis, or oftentimes remains in the chaff of the wheat and rolls itself up into a crysalis state—that it remains in this crysalis state in the ground, or in and among the chaff and straw of the wheat, until the succeeding season, when it comes out in the fly state and commences depositing its eggs in the blossoming wheat as heretofore. Some say, however, that the worm, or maggott, does not form the crysalis or "pupa" as it is called, until the June following, but remains in a dormant condition until then. Whether it does or does not, is not very material to the question of its ravages and the prevention of them. It has been found, we believe, to be the case that they are much more abundant in a field of wheat sown on ground occupied by wheat the year previous.

We have never heard of any experiments tried upon the soil with a view of destroying the dormant worm, or crysalis, while it is in the earth, and hardly know what course could be pursued which would destroy or dislodge them from their winter quarters. If it were certain that they bury themselves not more than an inch in depth, it is probable that burning the surface over might destroy some, if not all of them; but this would incur heavy expense in many cases, and in some locations be almost impossible.

With the exception of studying the changes which this insect undergoes, and giving a technical description of its external appearance and its distinctive marks, little has been done. More time and research are required in regard to it, in order to enable us to war against it with more success than has been hitherto had.

We ought to know how low a temperature the worm, or crysalis, can undergo and live. We ought to know for a certainty whether the worm, or maggot, can live on any other substances than the pieces of unripe grain; or, in other words, whether the instincts of the parent fly direct it to deposit its eggs in any other plant than grain. Some contend that it is found in clover and some other plants, while others say that the clover worm is entirely different. We ought to know whether the parent fly is capable of long extended flights, or whether it is confined to the immediate neighborhood of its birth. In short, we ought to know many more of its manners and customs, its likes and dislikes, than we now do, before we can be prepared to ward or prevent its attacks successfully. It is a battle with him for bread, and hitherto "midge" has beaten us.—[Maine Farmer.

Stand for Trailing Plants.

A beautiful flower stand for the growth of trailing plants in rooms can be made in the following manner:

Take a piece of wood which may be turned or carved to make it ornamental (or it may have the bark on and varnished, or covered over by pasting on mosses and lichens). Place it upright, and from it extend three tiers of wire, bent somewhat like the arms of a chandelier, from each of which are suspended a tolerably large conch shell filled with earth, in which flowers are planted. The uppermost tier of arms must be quite short, and may be five in number. The next tier below may be longer, so as to extend beyond the upper one, while the lowest one must be still longer. The shells may be attached or hung on by small copper wire, which may be passed around each shell. It will thus not be necessary to drill holes in the shells. Wooden arms will answer instead of the wires.

Osage Orange Topiary Work.

Although every one is aware that no plant bears the shears better than the Osage Orange, yet I am surprised that it is so seldom used for the decoration of formal or Italian gardens or topiary work.

If due attention is given to summer pruning, which has the effect of checking the otherwise rampant growth of this plant, the finest effects may be obtained. Last season, while passing through the neatly kept grounds of the editor of the Horticulturist, the estimable proprietor asked me, in a jocular manner, what I thought of that specimen of *tree* box, pointing to a beautiful verdant hemisphere at the opposite side of the garden. After I had expressed great admiration of it, he informed me that it was an osage orange that had been but a very short time under treatment. He also informed me that he intended, if possible, to surmount it with the figure of an eagle or bird, and the *legs* were then visible in the form of two shoots, which had been allowed to grow from the apex of the globe.

I merely mention this fact to show how easily it can be brought into any desired shape, and to urge upon your readers to experiment with it.—[R. in Gardeners' Monthly.

How to Water Plants.

As a rule, water should never be given until the further withholding of it would be detrimental to the plants. Habitual watering does, in the majority of cases, more harm than good. Plants left to battle with drouth, send their roots down deep in search of moisture, and when rain does come, they benefit more by it than those that have had regular waterings all along. If the ground is dug deeply and kept in good heart, plants that have once got established will bear drouth for any length of time, but things lately planted, and that have not had time to "get hold," must be kept supplied, or their beauty may vanish for half the season. Succulent vegetables, too, which ought to be kept growing quick, must have abundance, and, of course, plants in pots must, of necessity, have sufficient. There are two important points to be attended to in giving water: one is to expose the water to the sun before using it, to render it soft and warm, and the other is to give a thorough soaking at once, sufficient to keep the ground moist a week. Supposing the supply to be limited, but regular, the best way of economizing both water and time, is to take the garden piece by piece, watering each piece thoroughly every evening, and then beginning again as at first.—[Floral World and Garden Guide.

ECONOMY OF DYING STRUGGLES.—Irving used to tell a story illustrative of the Yankee talent at "making things pay." A man who sent turkeys to market also swept chimneys for a living; tying a cord around the neck of a bird so as not to choke it too suddenly, and then drawing it up and down the chimney, so that the flutter of the expiring struggle might do the sweeping. The papers tell us also that there is a grocer in Pennsylvania who is said to be so mean that he was seen to catch a fly off his counter, hold him up by the hind legs, and look into the cracks of his feet to see if he hadn't been stealing some of his sugar.

SPALDING'S PREPARED GLUE

Spalding's Prepared Glue!

Spalding's Prepared Glue!

SAVE THE PIECES!

ECONOMY! DISPATCH!

☞ "A STITCH IN TIME SAVES NINE." ☜

As accidents will happen, even in well-regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys, Crockery, etc.

Spalding's Prepared Glue

meets all such emergencies, and no household can afford to be without it. It is always ready, and up to the sticking point. There is no longer a necessity for limping chairs, splintered veneers, headless dolls, and broken cradles. It is just the article for cone, shell, and other ornamental work, so popular with ladies of refinement and taste.

This admirable preparation is used cold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet-makers' Glue. It may be used in the place of ordinary mucilage, being vastly more adhesive.

"USEFUL IN EVERY HOUSE."

N. B.—A Brush accompanies each bottle.

Price, 25 Cents.

Wholesale Depot, No. 48 Cedar street, New York.

Address— HENRY C. SPALDING & CO.,
Box No. 3,600, NEW YORK.

Put up for Dealers in Cases containing Four, Eight, and Twelve Dozen, a beautiful Lithographic Show-Card accompanying each package.

☞ A single bottle of SPALDING'S PREPARED GLUE will save ten times its cost annually to every household. ☜

Sold by all prominent Stationers, Druggists, Hardware and Furniture Dealers, Grocers, and Fancy Stores.

Country merchants should make a note of SPALDING'S PREPARED GLUE, when making up their list. It will stand any climate.

SPRING AND SUMMER MEDICINE.

The fibres of the body are often soft and relaxed after the bracing cold of Winter is withdrawn; and if sickness attacks us, it is in the form of fainting, apoplexy, fevers, inflammation, and acute rheumatisms. Because at this season all the humors are apt to corrupt from any sudden check of the perspiration, from costiveness or the stoppage of any usual evacuation, than at any other period of the year. BRANDRETH'S PILLS set all to rights, cleanse the blood from those crudities which the cold and want of exercise of Winter have locked up in the bowels and solids of the body, and which, if not timely expelled, produce cancer, tumor, costiveness, consumption, and an early death.

When, therefore, you feel chilliness, lassitude, dizziness, pains of the head, lose no time, but at once swallow four, six, or eight of BRANDRETH'S VEGETABLE UNIVERSAL PILLS.

Soon cheerfulness will displace anxiety, and health disease. And remember, these Pills are entirely vegetable, and harmless for the weakest or the strongest, but able to search out and remove all impurities, leaving the blood as pure as it was in our first parents.

These celebrated Pills are sold at 25 cents per box, with full directions, at 294 Canal street, New York. Dr. Brandreth's office, and by J. B. WILDER & CO., Main street, and RAYMOND & TYLER, Fourth street, Louisville, Ky., and by all respectable dealers in medicines.

DALLEY'S MAGICAL PAIN EXTRACTOR

Should ever be at hand in case of *Camphene or Fluid explosions;* as its name designates, it is the great remedy of the present day for the instantaneous relief of the agony that immediately ensues upon SCALDING and SCORCHING; its healing properties are both swift and perfect; it first reduces the inflammation, and finally renews the skin, without leaving a trace of blemish or scar behind. Be warned in time to keep this invaluable salve ready and at hand in time of need.

Sold at the principal depots, 14 Broadway, N. Y., and Chatres street, New Orleans, by J. WRIGHT & CO., General Agents. Also by all druggists and merchants.

NEVER FAILS.

This is the motto of Palmer's Vegetable Cosmetic Lotion, and it never did and never will fail convincing every one that uses it, that its virtues cannot be described. Its wonderful curative powers must be experienced to be appreciated.

"Palmer's Vegetable Cosmetic Lotion has cured an eruption on my face of more than fifteen years standing.

* * * One branch of my business having led me to an acquaintance with all the different kinds of medicines recommended for diseases of the skin, I unhesitatingly pronounce your Lotion infinitely superior to all others.
Yours, &c., E. N. SLOCUM,
Oct. 8, 1855. 102 Main st., Cincinnati."

Such evidence can be multiplied indefinitely. Then throw away no more money on worthless trash, but make immediate use of this king of all remedies.

Price 50 cents.

"HUMAN FRAILTY, or PHYSIOLOGICAL RESEARCHES," should be read by everybody. It treats of self inflicted diseases, and the results of early mal-practice, the causes that frequently lead to *unhappy marriages,* their relief and prevention, with copious instructions as to the sure method of dispelling the *misgivings* that frequently take hold of those *about to enter* into the marriage state. The work is *beautifully illustrated* with colored engravings, and is fraught with wholesome advice and exhortations.

"BROWN'S LAXATIVE TROCHES."

There is no taint of quackery in their composition. Very many of the first physicians, where the Troches are manufactured, know their ingredients, and freely recommend their use. Where habitual or occasional constipation exists, they will infallibly remove it, and will in due time restore a natural and healthy action.

UDOLPHO WOLFE'S
AROMATIC
SCHIEDAM SCHNAPPS
A SUPERLATIVE
TONIC, DIURETIC, ANTI DYSPEPTIC
—AND—
INVIGORATING CORDIAL

Pure Holland Gin for Medical and Private Use.

I BEG leave to call the attention of the Citizens of the United States to a superior article of HOLLAND GIN manufactured exclusively at my Distillery in Schiedam, Holland, for Medical and Private use.

It is made from barley of the finest quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced by a change of water—a visitation to which travelers, and all unacclimated persons, are liable—the Schiedam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, dyspepsia, ague and fever, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

I wish the public to understand the Schnapps is not sold by the gallon or pipe. It is only sold in quart or pint bottles, in cases of one dozen quarts and two dozen pints, each bottle enveloped in yellow paper, with my name on the bottle, cork, and a fac simile of my signature on the label. For sale at all the respectable Druggists, Grocers and Hotels.
UDOLPHO WOLFE,
Sole Importer and Manufacturer,

Pure Wines and Liquors for Medicinal and Private Use.

I BEG leave to inform the Public that I am now importing and bottling pure Cognac Brandy, Madeira, Sherry and Port Wine, Scotch and Irish Whisky, Jamaica and St. Croix Rum, all warranted pure and of the best quality.

I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the city of New York, that what I pledge and testify to with my seal, my label, and my certificate, is correct, and can be relied upon by every purchaser.

Physicians who use Wines and Liquors in their practice, should give the preference to these articles.

For sale by all respectable Druggists and Apothecaries.

This Jar is no new thing, having been tried for 2 or three years in the East, with greater success than any other Jar, taking the medal wherever exhibited, in consequence of which the manufacturers have never, until the Present time, had facilities sufficient to furnish the demand, even in the East.

LOUISVILLE
PRIVATE MEDICAL DISPENSARY,
ESTABLISHED 1852,
For the Cure of all Private Diseases.

DR. GATES has for many years devoted his whole time and attention to the treatment of diseases of a private nature in all their varied and complicated forms. His success in those long standing and difficult cases, such as were formerly considered incurable, is sufficient to commend him to the afflicted, as worthy of the extensive practice he has heretofore received. And he pledges to spare neither time nor expense to render himself proficient in the profession of his adoption. Those who believe they have contracted disease should make immediate application, as by my improved treatment I am enabled to cut short recent cases in a few days.

Dr. G. will guarantee a perfect cure in all cases for the same that others charge for medicine in like cases.

YOUNG MEN—Who, by indulging in solitary habits, have contracted that mind-harrowing and body-destroying disease, SEMINAL WEAKNESS, which leads to the most alarming and fatal consequences, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

MIDDLE-AGED and OLD MEN—Who, by excessive indulgence of their passions, have produced a debility in advance of their years, can consult Dr. Gates with the fullest assurance of being again restored to that state of health which they would have enjoyed had they never committed any excess.

Persons contemplating marriage, and having any doubts as to their physical ability to enter into that solemn contract, should apply at once to Dr. Gates, who will remove all obstacles to a long and happy life.

In all cases which he undertakes, he guarantees a perfect and permanent cure, no matter who or what else has failed.

"DR. GATES' PRIVATE MEDICAL TREATIES ON SEXUAL DISEASES," a new and revised edition, handsomely illustrated with numerous plates and engravings representing the genital organs of both sexes in a state of health and disease; treating on all private diseases incident to both sexes, such as general, nervous and sexual debility, solitary habits, seminal weakness, impotence, &c., with instructions for their speedy and permanent cure, sent free to any person on receipt of name and address.

TO THE LADIES.—Dr. Gates is agent for M. LACRAUX'S FRENCH PREVENTIVE POWDERS. By their use those who, from any cause, wish to limit the number of their offspring, do so without danger to health or constitution. Price, by mail, $2 and two postage stamps.

Also, for MADAME CAPRAU'S FEMALE MONTHLY PILLS—A safe and effectual remedy for Irregularities, Obstructions, &c. Price, by mail, $1 and one postage stamp.

CAUTION!—These Pills should not be taken during PREGNANCY, as they are sure to produce miscarriage.

To persons at a distance who wish to be cured at home, I will, on receipt of a brief statement of their case, send a list of such questions as I would ask on a personal interview, and, on receipt of the list filled out, I will forward medicines particularly adapted to the case, free from damage or observation, to any part of the country, with full directions for use.

N. B.—It has been with the greatest reluctance that Dr. GATES has so long permitted his Card to appear before the public, deeming it unprofessional for a physician to advertise, but unless he did so the afflicted, especially strangers, would be liable to fall into the hands of the many unprincipled and unlearned Impostors which infest every large city, advertising themselves as physicians, with enormous, lying and bombastic pretensions of great and astonishing cures, who keep you taking large packages of filthy and worthless compounds prepared to impose upon the unfortunate and unsuspecting, trifling month after month, or as long as the smallest fee can be obtained, and finally leave you in despair, with ruined health, to mourn over your lost reputation and galling disappointment. It is this motive which has induced Dr. G. to continue his advertisements.

Those who have been under unsuccessful treatment, are particularly requested to give him a call, for he alone is able to cure you.

Consultation may be held from 8 A. M. to 9 P. M., (or Sunday from 8 to 11 A. M.) at his office, northeast corner of Third and Market streets—Private entrance on Third street—Louisville, Ky.

☞ Secrecy inviolable! Don't forget the name and number. All letters should be addressed to

KNOW THYSELF!

DR J. H. McCANN is enabled to detect to a certainty the true condition and locality of Diseases by a simple and scientific method, without asking the patient any questions. Some profess to do this, yet are careful to ask some leading questions in order to obtain a clue to the disease. We do nothing of that kind, and have invariably given satisfaction. Consultations and examinations

FREE OF CHARGE.

DISEASES OF THE THROAT AND LUNGS treated by a new method of Medicated Inhalation and Constitutional Treatment. We offer new remedies entirely vegetable, which has proved a speedy and effectual cure in the following diseases, viz: Bronchitis, all diseases of the Throat and Lungs, Diseases of the Heart, or the Stomach, of the Liver, of the Kidneys, Dropsy, St. Vitus' Dance, Cancers, Chronic Ulcers, Rheumatism, Neuralgia, Paralysis, Fistula, Spasms, Fits, Diseases of the Eye and Ear, Seminal Weakness, Skin Diseases, Rupture, Diarrhœa, and in short, all curable diseases. We are not a "cure-all" doctor, and will undertake no case without a fair prospect of recovery. ☞ No extra charge made to patients for the application of Magneto Electricity.

FEMALE DISEASES.

Females troubled with Suppressions, Irregularities, Leucorrhea, or Whites, Falling of the Womb, Polypus of the Uterus, Tumors of any kind, Barrenness, all Urinary Diseases, painful or difficult Menstruation, Nervous Debility, &c., will be speedily cured without the use of Poisonous drugs, injurious and unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. I do not expect you to place yourself under my treatment unless you prefer it. All communications are confidential. The afflicted are cordially invited to call and satisfy themselves. Office on First street, four doors above Market, west side, Louisville Ky. Office hours from 8 o'clock A. M. till 9 P. M. PERUVIAN SIRUP,
OR PROTECTED
SOLUTION OF PROTOXIDE OF IRON!
THE
ONLY RELIABLE AND PERMANENT CURE
FOR
DYSPEPSIA, GENERAL DEBILITY
And all Diseases arising from Impoverished and
IMPURE BLOOD.

The failure of Iron as a remedy for disorganized blood, has arisen from the want of some preparation of it that will assimilate with that vital fluid. This need the PERUVIAN SIRUP supplies, and in the only form in which it is possible for Iron to enter the circulation.—For the same reason, the class of diseases PERUVIAN SIRUP radically cures are precisely those which the usual remedies merely relieves, among which are:

Dyspepsia, Dropsies,
Neuralgia, Bronchitis,
Consumption Tendencies,
Colorless, Blood Boils, Skin
Diseases, St. Vitus' Dance,
Leuchorrhea, or Whites,
General Debility, Torpidity
of the Liver, &c., &c., &c.

To those who regard the authority of names more than their own experience, it is enough to say that the Peruvian Sirup is now regularly prescribed by every Physician of note in Boston, and in the Massachusetts General Hospital, an institution of the highest reputation in the country.

COPY OF A LETTER FROM DR. WM. CHISHOLM.
NEW BEDFORD, March 5, 1858.

GENTLEMEN:—I have used the Peruvian Sirup for the past three years with the most gratifying success in cases of Dyspepsia (various forms), Chronic Diarrhœa, General and Nervous Debility, Neuralgia, Erysipelas, and various diseases of the Skin; also for Chlorosis, Leucherrea, Prolapsus Uteri, Suppressed Courses, and Female Complaints generally. In the last class of complaints particularly, I have found the medicine to have great power, and for Boils I consider it an infallible remedy.

The Peruvian Sirup combines valuable alternative and tonic properties, and is of remarkable efficacy in all chronic diseases characterized by want of vitality.

GALEN'S HEAD DISPENSARY,
(ESTABLISHED 1850),
FOR THE CURE OF ALL PRIVATE DISEASES, AND FOR THE SUPPRESSION OF QUACKERY.
Office located corner Fifth street and Court-Place.

THOSE AFFLICTED WITH ANY *disease of a private nature, before placing themselves under the treatment of any one, will learn something of importance by procuring* DR. WILLIAMS' MEDICAL REPORT on a new method of treating Syphilis, Gonorrhea, Gleet, Strictures, Sexual Debility, Impotency, Female Diseases, &c., &c., with a full treatise on Self-Abuse or Seminal Weaknes, its deplorable consequences, and the only rational mode of successfully treating it; a truthful adviser of the married and those contemplating marriage; containing 26 plates and engravings of the organs of both sexes in a state of health and disease. Sent GRATIS on receipt of one stamp.

YOUNG MEN who have injured themselves by certain SECRET HABITS which unfit them for Marriage and the duties of life, bringing on SEMINAL WEAKNESS, nocturnal emissions, and a train of evils easier understood than described, by going through a course of treatment may be restored to the health and vigor of manhood. Those contemplating MARRIAGE should first consult us with regard to their ability to perform its duties.

MIDDLE AGED and Old Men, who, from the follies of youth, or other causes, feel a debility in advance of their years, may be reinvigorated to a natural degree by our APHRODISIAQUE REMEDIES.

TO FEMALES—Special attention given to all diseases of females—Leucorrhea, or "Whites," Chlorosis, Menstrual Diseases, Womb Complaint, &c. Also, agent for DOCTOR DEWEES' FEMALE MONTHLY REGULATOR, a safe and certain remedy for Obstructions, Irregularities, &c., and is the only reliable "preventive of pregnancy," warranted not to injure the health. CAUTION!—It should not be used during pregnancy, as MISCARRIAGE would be the result, though always harmless. Price $1 per box, and may be sent by mail.

The author may be consulted, either personally or by letter, on all the diseases of which his work treats, and medicines sent to all parts of the country with complete instructions for self-treatment, secured from danger or curiosity. Address DR. T. WILLIAMS,

RICHARDSON'S
IRISH LINENS,
DAMASKS, DIAPERS, &C.

CONSUMERS of Richardson's Linens, and those desirous of obtaining the genuine goods, should see that the articles they purchase are sealed with the full name of the firm.

as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable, while purchasers can be imposed on with Goods of a worthless character.

CHILDREN TEETHING

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents the attention of mothers, her
SOOTHING SIRUP
FOR CHILDREN TEETHING,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is *sure to regulate the Bowels.* Depend upon it mothers, it will give rest to yourselves, and *Benefit and Health to your Infants.*

We have just put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the the highest commendation of its magical effects and medicinal virtues. We speak in this matter "WHAT WE DO KNOW," after ten years' experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the Sirup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER-FAILING SUCCESS in

THOUSANDS OF CASES.

It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST AND SUREST REMEDY in the world, in ALL cases of DYSENTERY & DIARRHŒA IN CHILDREN, whether it arises from teething or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE, yes, ABSOLUTELY SURE—to follow this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac simile of CURTIS & PERKINS, New York, is on the outside wrapper.

AFFLICTED, READ!
WONDER OF THE WORLD!
15 YEARS SUCCESS IN CURING PRIVATE DISEASES!
DR. HALL

CONTINUES to cure (when all others fail) every form of Secret Diseases in an incredible short time. By a long course of study, and practical experience of unlimited extent, Dr. H. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, been known to fail in curing the most alarming cases of Gonorrhœa and Syphilis.

Beneath his treatment, all the horrors of Venereal and impure blood, Impotency, Gonorrhœa, Ulcers, Dizziness, Vertigo, Pains and Distress, Abcesses, Humors, frightful swellings, and the long train of ills attending this class of disorders, are made to become tractable and harmless as the simplest ailings of an infant. By his system it is proved that the dreadful venereal complaint is as entirely under the control of medicine as is a common cold or simple fever; and, while insufficient persons are daily sending away their patients in hopelessness, and giving them up only from their own incompetency, the clear road to health and comfort lies at hand to be gained at once, by application at Dr. H.'s Dispensary.

YOUNG MEN TAKE PARTICULAR NOTICE.—Dr. H. devotes much of his time to the treatment of those cases caused by a secret and solitary habit, which ruins both body and mind, unfitting the unfortunate individual for either business or society. The sad and melancholy effect of these early habits, or the excess of riper years, are to weaken and debilitate the constitution, destroy the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the vital energies of manhood; the pleasures of life are marred, the object of marriage frustrated, and existence itself rendered a term of unceasing misery and regret. Such persons, before contemplating marriage, should at once consult a physician of skill and experience, and be at once restored to health and happiness.

DR. HALL'S AMERICAN PERIODICAL PILLS—No article of medicine intended for the exclusive use of females has ever yet been introduced, that has given such universal satisfaction as the American Periodical Pills. They can be relied on in all cases of Obstructions, Irregularities, &c., as a sure and safe remedy. Price $1.

CAUTION.—They must not be used during pregnancy, or miscarriage will certainly be the result.

Patients living at a distance can be cured at home by sending a description of their disease.

Medicine sent to any address.

THE RIVER continues to recede steadily and rather fast, considering the low stage of water, with four feet seven inches in the canal last evening by the mark. During the previous twenty-four hours the river had fallen two inches at the head of the falls, which was six inches at Portland. The weather is clear, dry and warm, though somewhat cooler last evening.

The river is falling at Pittsburg and all points below, and the channel hard to find, with boats aground at Blennerhassett, Marietta, and Buffington.

Along the lower Ohio, the Atlantic, the latest arrival from New Orleans, reports but seven and a half feet water at Flint Island, and the river falling. That exactly coincides with the marks of Capt. Lockhart, the superintendent of the canal.

Above Cincinnati the last arrivals report barely four feet water on the bars. The Pittsburg Journal, of Thursday, has the following:

> The only arrival beyond the regular packets was the Mariner, from St. Louis, while the Mary Cook, for Cincinnati, and Wheeling boats constituted the departures. The river continues to fall. The great majority of the boats now at the landing have laid up for the season.
>
> The Poland, from Cincinnati, was the only arrival on Wednesday. The St. Louis, for Louisville, was the only departure.

☞ The following river items are from the Memphis Appeal of Wednesday. It knocks Arkansas down again:

> The river is declining slowly at this point. Boatmen have abandoned all hope of an immediate rise in the Arkansas river. The Frontier City arrived from that stream yesterday, and her officers report that there had been a rise of two or three inches at Little Rock, and that the water had then commenced receding again.
>
> The John Tompkins, which departed for Pittsburg last evening, took 200 bales cotton.
>
> The Frontier City, which arrived from the Arkansas river yesterday, was brought here to be transferred to her new owners, but the contracting party failed to come to terms, and the transfer was not made.
>
> The N. W. Thomas passed down yesterday with a barge of ice in tow, for Natchez, without landing.

THE ATLANTIC—FOR NEW ORLEANS THIS EVENING.—The Atlantic arrived from New Orleans early yesterday morning, barely five and a half days out, full of passengers, cabin and deck, the very best trip of any boat this season. She had one hundred and fifty in the cabin and two hundred and fifty on deck, not counting those put off on the way. She encountered much detention by low water in the Ohio, and a terrific storm Wednesday night, compelling her to lie by six hours. Her time out to Cairo, including some fifty odd landings, was just inside of four days, passing the Ed. J. Gay, that started twenty-four hours ahead. The Atlantic made seventy landings on the trip, commencing taking in passengers on the coast, and then receiving and putting off people at every prominent point to this port.

The Atlantic, in charge of the gallant McGill, the most popular boatman in the trade, returns to New Orleans this evening. She starts at 5 o'clock, from Portland, and being able to take but a limited amount of freight from this port, owing to the low water, will depart punctually at the hour. The clerks are our accomplished young friends John Woolfolk and Dick Ferguson.

☞ The John Raine, from New Orleans, as we learn by special dispatch from Henry McDougal, the gallant clerk, was at Vicksburg early yesterday morning, full of passengers. She is due next Tuesday, and returns to New Orleans Wednesday evening.

☞ The Atlantic left New Orleans last Saturday, nearly a week later than the Diana—was full of passengers all the way—having fully 400 on the boat, cabin and deck, and nothing like yellow fever was heard of. In fact, but one single case had been reported in the Charity Hospital, New Orleans.

We hope the papers that gave currency to the silly report of deaths by yellow fever on the Diana, will promptly correct it.

☞ The Maclay arrived at St. Louis Wednesday, and the Anglo Saxon departed.

☞ The Melnotte, Clara Dean, and Courier have laid up at Wheeling, on account of low water.

☞ The officers of the Texas, that arrived at New Orleans, Tuesday, from Shreveport, report Red river falling at every point. There was three feet water on Lecompte bar, with the same depth on the falls.

☞ Mr. Thornton Jacobs, of Shreveport, has purchased the Reub White; the price paid was $2,500. She will be placed in the Red river trade.

☞ The Cambridge, from Pittsburg, passed Marietta on Thursday.

☞ We understand that it is the intention of the Messrs. Shock & Horbach to purchase one or more boats to run between Memphis and Southern ports during the coming season.—[Memphis Avalanche.

FOR MEMPHIS.—The fine side wheel, light draught packet Gen. Pike came in from Memphis last evening, and returns to that port this evening. She starts at 5 o'clock, from Portland, in charge of Capt. J. M. Martin, of this city, a careful, courteous boatman, who will take freight and passengers to all points along the route.

☞ The light side wheeler Bracelet, in charge of Capt. Caffrey, with our clever friend Duvall in the office, is the regular punctual packet for Evansville and all way places this evening.

☞ The new Red river boat for Capt. Puckett is expected to be launched from the New Albany ship yard this evening.

☞ Capt. Sam. Montgomery contemplates taking the Republic out to Cairo this evening to await the opening of the fall campaign in the cotton trade. She will probably tow the hull of the Eclipse to Cairo.

☞ The Cincinnati Gazette, of yesterday, has the following in regard to boats in that quarter:

> The Economy has laid up here for repairs, and we learn that she will run as a low water packet between this port and St. Louis during the summer in command of Capt. Frank. Batchelor.
>
> The Universe reshipped her New Orleans freight on the Silver Wave yesterday, and has laid up for the present.
>
> The Lecomte and Messenger have also laid up at this port, the former to be dismantled and the latter repaired.
>
> The following steamers were at the landing last evening: The Economy, Messenger, Conewago, Chessman, Lebanon, Decatur, Lady Pike, Universe, Grand Turk, Glenwood, Silver Wave, and Lecomte.

THE CHANCELLOR.—This substantial low water packet has been detained takes her departure to New Orleans this evening, at 5 o'clock, from Portland. She has nearly a full load engaged, and Capt. Malborn will go without fail, and will keep her on the track all summer. The clerk is Mr. Foster, who is always right and attentive.

DROWNED.—On the downward trip of the steamer D. B. Campbell, on Monday night, about twenty miles below Bowling Green, a deck hand, named John Roe, fell overboard, and, it is thought, was drowned.

☞ The John A. Fisher broke her shaft at Clarksville, on Friday afternoon.

☞ At Cairo the arrivals of freights continue to amount to about one hundred tons daily.

☞ Mr. J. S. Relf has been chosen director of the New Orleans and Bayou Sara Mail Company, in lace of Capt. J. A. Cotten, deceased.

☞ The Jacob Strader, the leviathan low-pressure, is the mail and passenger packet for Cincinnati and the East at noon to-day. This will probably be her last trip.

COAL BOATS AGROUND.—We learn that a pair of large coal boats, going South, belonging to Murphy & Hyatt, of this city, were aground just below Uniontown in the Ohio, and will have to be lightened off. Lighters will be dispatched to them to-day.

SALT MOVING.—The Bay City came in yesterday with two barges of salt for St. Louis, and the Baltimore tow boat came in from Pomeroy with a fleet of salt.

☞ The Jo Jaques, a diminutive craft, came in from Kentucky river yesterday with a load of tobacco.

☞ The Cincinnati Commercial announces the forthcoming of the following hind-wheel line of boats:

> A regular line of light draft packets will ply regularly to New Orleans during the summer, comprising the steamers Silver Wave, Ft. Wayne, Jesse K. Bell, Stephen Decatur, J. C. Fremont, J. S. Pringle, Aurora, and J. W. Cheesman.

☞ The New Orleans Delta of last Tuesday has the annexed report from Red river boats:

> Not quite as agreeable is the fact that two more Red river boats have laid up, namely: The Era No. 3 and the Texas. The cause assigned is not want of water, but lack of business for the present. There was only one Red river boat at the landing doing anything yesterday, and not much at that. Above Canal street, business looks a trifle better.
>
> The Alma came down from Pittsburg with a good cargo.

☞ The Sallie List, from this port to Parkersburg, had to lighten over Buffington.

☞ This has been the month of storms, one of which reached Mobile last Friday, forcing the James Battle from her moorings, consisting of three inch hawsers and a heavy chain cable, and for several minutes the future pet of the Alabama river seemed to be in great danger. The wind capsized eight of the boats in the Regatta, and the schooner Pioneer, probably drowning two men. The St. Charles, St. Nicholas, Carondolet, Natchez, the hull of the Lucy Robinson, and a barge, moored at the wharves on the opposite side of the city, broke their moorings and were blown against the steamer Legrand, staving in her wheelhouse, the rest going down below and coming in contact with the Baltic.

CAIRO CORRESPONDENCE.

CAIRO, June 21, A. M.

Editors Louisville Courier: The following boats have passed since last report:

Wednesday—Gen. Pike, Memphis for Louisville; John H. Dickey, Memphis for St. Louis; Sunny Side, Cincinnati for St. Louis; Southerner, Louisville for Memphis; Daniel G. Taylor, New Orleans for St. Louis; Charley Bowen, Evansville for Cairo; Atlantic, New Orleans for Louisville; Argyle, New Orleans for Cincinnati; Edward J. Gay, New Orleans for St. Louis; Post Boy, Cairo for St. Louis; John Walsh, St. Louis for New Orleans.

The Gen. Pike for Louisville, passed up at noon yesterday.

The Southerner, for Memphis, arrived at 1 o'clock P. M., with a light trip.

The Atlantic passed up at 5 o'clock yesterday evening, less than four days out, with 150 cabin and 200 deck passengers. Her officers informed me they did a very heavy way business below this point.

One of her deck passengers attempted to raise a fight here with a bread peddler, by upsetting his basket of bread into the river, when the officers of the boat promptly put an end to the disturbance by putting both men ashore.

The Ohio rose one inch here yesterday. The Mississippi is still rising.

Arrivals by railroad improving, with 100 hhds of tobacco, and 3,000 sacks of oats, corn, &c., awaiting shipment South.

The Argyle, for Cincinnati, passed up in the evening, with about 400 tons for Cincinnati and Pittsburg.

Weather cloudy, with heavy rains and some wind last night. ITEM.

MEMORANDA.

The Atlantic left New Orleans Saturday, June 16th, at 5 P. M. Met Fairchild at Red Church; John Raine at Big Black Island; Fanny Bullitt at Grand Lake; Quitman at Cow Island; Peytona at Ashport; Diana at Owensboro; 150 cabin passengers and 250 deck passengers.

The Gen. Pike arrived from Memphis June 22d; met Gen. Quitman at Island 29. Interchange below Point Pleasant, Southerner and Sunny Sides at Cairo, Bracelet and Diana above Evansville, Mustang at Owensboro, and Fred Tron below Brandenburg.

River receding slowly, with seven and half feet at Flint Island, and nine feet at Caseyville and Cincinnati Towhead.

AGREEMENT.

THE Coal Proprietors of Hawesville, Ky., and Cannelton, Ind., upon a full review of the operations in the coal business, during the past season, at these points, are satisfied that the business, with the necessary facilities for delivery to steamboats, cannot be sustained at a price less than Seven Cts. per bushel. Believing that the price will be just and fair both to the seller and consumer, and at the same time maintain the business upon a basis corresponding to the demand for fuel, we have mutually agreed that after this date Seven Cents per bushel will be the uniform price for which Coal will be sold to Steamboats at our respective Coal yards; and to avoid all future misunderstanding, and that all boats may receive Coal at a uniform price, it is agreed that the sale of any order or obligation for the delivery of Coal, by which the consumer pays less than Seven Cents per bushel, will be deemed a violation of this agreement.

The Democratic National Convention.

Friday's Proceedings.

BALTIMORE, June 22d.—The Convention assembled at 10 o'clock, promptly—the theater being densely crowded.

Prayer was offered by Rev. Mr. Swartz.

Mr. Wright, of Missouri, moved that the journal of yesterday's proceedings be read.

Mr. Cook, of Ohio, moved to dispense with the reading. The position of the question could not be understood by the chair.

The reading was dispensed with.

The chair, after preliminary remarks relating to the convenience of the delegates, stated that the main question had been ordered.

The Secretary then read the motions in their order.

The Chair then stated that the question would be first taken on the report of Mr. Gittings, of Maryland, adopting the whole majority report excepting in the case of Alabama, and admitting in that State the original Charleston delegates.

Mr. Krum, of Missouri, on a question of privilege, stated that in the haste of report errors occurred in some of the names of the delegates in all the reports. He asked consent to have them corrected.

Mr. Sibley, of Minnesota, inquired whether, under the rules adopted by the Convention, it was in order for the Chairman of the Committee on Credentials to be heard in the close of the debate, even after the main question had been ordered.

Mr. Gittings, of Maryland, asked consent to withdraw the first part of the report so as to leave before the Convention, as his report only, the resolution admitting the Yancey delegates from Alabama. In so doing, he stated that it had been rumored outside that his report had been made in consequence of the fascination of Mr. Yancey; while he admitted that Mr. Yancey was the most fascinating man he ever met, yet, those who believed such influences dictated his report, knew little of him as a man, or of his principles as a Democrat.

Mr. Wright, of Massachusetts, raised a point of order, that no motion had ever been made to adopt Mr. Gittings' report as an amendment.

The President decided the point of order not well taken, saying that the report took the position of an amendment to the majority report.

Mr. Wright, of Massachusetts, objected to the withdrawal of the first part of Mr. Gittings' report.

Mr. Gittings then asked consent to withdraw his whole report, which was granted, thus bringing the minority report proper first in order.

Mr. Krum, of Missouri, on behalf of the majority of the commitee, asked leave to file a statement of the reasons for their conclusions in the report.

Mr. Wright, of Massachusetts, objected.

Mr. Sibley, of Minnesota, asked whether an objecton could prevent the reading of the statement.

Mr. Krum said if permitted to file this statement he would waive the right to speak in conclusion of the debate.

Mr. Wright, of Mass., still objected, when the gentleman from Missouri commenced his speech. He should raise a point of order that there was no debate on the reports of yesterday, and therefore there could be no right of reply.

Mr. Clark, of Mo., called attention to the remarks of Messrs. Phillips and Stevens, of Oregon, yesterday, which certainly made a debate on the report.

The President decided that the debate had taken place, and gave the floor to Mr. Krum.

Mr. Krum then read a statement giving his reasons for the conclusions of the majority of the Committee on Credentials. He argued that the secession of delegates did create vacancies and trouble. The resolutions adopted at the Charleston Convention recognized such vacancies and called on the States to fill them. The minority of the committee, while denying that vacancies exist, proceed to render their argument absurd by filling those very vacancies.—The States themselves had recognized vacancies by re-appointing and re-accrediting delegates to Baltimore. The credentials of the Mississippi delegates bore on their face the fact that they were appointed on the 30th of May, and many were new names. The Alabama credentials of the delegates bore on their face the date of their appointment, not to this Convention, but to Richmond; and lower down they were accredited to this Convention. They might as well have been appointed also to the Chicago Convention; but what man would desire to be admitted on such a roving commission to a Democratic Convention?

The statement proceeded to give similar reasons for the admission of the Soulé delegation from Louisiana, and a compromise of the delegations from the other States.

Mr. Brown, of North Carolina, rose to speak, but was called to order by a delegate from Maine, who said there was no debatable question before the Convention. The President ruled debate out of order.

Mr. Stevens, of Oregon, rose to make a personal explanation.

Mr. Stuart, of Michigan, objected.

The President. The gentleman from Michigan objecting, the Chair must enforce the rules of order.

Mr. Stevens. I appeal to the gentleman from Michigan to withdraw his objection.

Mr. Stuart. No gentleman will go further than myself in granting a personal favor, but the business of the Convention has already been delayed so long that I cannot withdraw my objection.

The President stated that a call had been made for a division on the question. He ruled, as the motion was to strike out and insert, it was inadmissable.

Mr. John Cochrane held that, while a motion to strike out and insert was inadmissable, yet it only applied to separate propositions—to strike out one indivisible proposition and insert another. This being a motion to substitute one series of propositions for another series, he held it was divisible.

The President, while expressing some doubt, maintained his original decision.

The question was then taken on the substitute of the whole minority report, by Mr. Stevens, of Oregon, for the whole majority report.

The vote was called by States, and resulted as follows:

Maine—Ayes, 2½; nays, 5½.
New Hampshire—Ayes, ½; nays, 4½.
Vermont—Ayes, 1½; nays, 3½.
Massachusetts—Ayes, 8; nays, 5.
Rhode Island—Nays, 4.
Connecticut—Ayes, 2½; nays, 3½.
New York—Nays, 35.
New Jersey—Ayes, 4; nays, 3.
Pennsylvania—Ayes, 17; nays, 10.
Maryland—Ayes, 5½; nays, 2½, and one delegate declining to vote.
Virginia—Ayes, 14; nays, 1.
North Carolina—Ayes, 9; nays, 1.
Arkansas—Ayes, ½; nays, ½.
Missouri—Ayes, 5; nays, 4.
Tennessee—Ayes, 10; nays, 1.
Kentucky—Ayes, 10; nays, 2.
Ohio—Nays, 23.
Indiana—Nays, 13.
Illinois—Nays, 11.
Michigan—Nays, 6.
Wisconsin—Nays, 5.
Iowa—Nays, 4.
Minnesota—Ayes, 1½; nays, 2½.
California—Ayes, 4.
Oregon—Ayes, 3.
Total—Ayes, 100½; nays, 150.

So the motion to substitute Mr. Stevens' minority report for the majority report was lost.

The Chair having requested that no expression of applause or dissent should be indulged in, the result was received in silence.

The vote then recurred on the adoption of the majority report.

Mr. Church, of New York, and Mr. Jones, of Tennessee, called for a division of the question on each proposition.

The question was then put on the first resolution of the majority report, admitting the original delegates from Mississippi, which was carried nearly unanimously, the only negative votes being two from Pennsylvania and one and a half from Iowa. Half the vote of Massachusetts declined to vote.

Capt. Rynders, of New York—Mississippi having been admitted to seats, I move that they be admitted at once. [Cries of "No, no;" "Yes, yes."]

Capt. Rynders—Well, I don't care whether you cry "no" or "yes;" I make the motion.

Mr. Cochrane, of New York, raised a point of order, that the report was not adopted till adopted as a whole.

The President—No motion is before the Convention—the operation of the previous question preventing it.

A delegate inquired whether the Chair would issue tickets to admit the Mississippi delegates.

The President replied that he was under the direction of the Convention in that respect.

Mr. Stuart, of Michigan, objected to any business but the questions before the Convention.

A vote was then taken on the second resolution of the majority report, admitting the Soulé delegates from Louisiana. The vote is precisely the reverse of that on the rejection of the minority report, except the following States:

Vermont—Ayes, 4½; nays, ½.
New Jersey—Ayes, 2½; nays, 4½.
Maryland—Ayes, 2½; nays, 5½.
Virginia—Ayes, 1; nays, 13.
North Carolina—Ayes, 2; nays, 8.
Tennessee—Ayes, 2; nays, 10.

Total—Ayes, 153; nays, 98. So the second resolution was adopted.

The question was then taken on the third resolution of the majority report, admitting Mr. Hindman and his colleagues from Arkansas, with power to cast two votes, and Mr. Hooper and his colleagues. The contestants, with power to cast one vote, and providing that if either of the delegates refuse to take their seats, the others shall be entitled to cast the whole vote of the State.

Mr. Saulsbury, of Delaware, called for a division of this resolution, so as to take a vote on the proposition contained therein.

The President decided the resolution divisible.

The question was taken upon the three several propositions. First, on the admission of the Hindman delegation; second, on the admission of the Hooper delegation; and third, giving the power to one set to cast the whole vote of the State if the other set withdrew. All were adopted. A vote was then taken on the fourth resolution of the majority report, admitting the original delegation from the State of Texas; adopted—only 2½ votes in the negative; 2 from Pennsylvania, and ½ from Iowa.

A vote was then taken on the fifth resolution, admitting Messrs. Bayard and Whitely, of Delaware. The resolution was adopted without a division.

The resolution giving Mr. R. L. Chaffee the seat in the Massachusetts delegation, contested by Hon. B. F. Hallet, was then adopted: 138 to 111.

Mr. Stuart, at this point made a motion to reconsider each vote and lay the same on the table, it being understood that the motion was not to be put until votes on all the propositions had been taken.

The 7th resolution of the majority, declaring Mr. O'Fallon intitled to the seat in the Missouri delegation claimed by John B. Clancy, was then adopted—138½ to 112.

Mr. Cessna, of Pennsylvania, moved to reconsider the vote and lay the resolution on the table; laid over.

The 8th resolution admitting the contesting delegates from Alabama was next adopted—148½ to 101½.

Mr. Cessna moved to reconsider the vote, and to lay that resolution on the table; laid over.

The question being on the 9th and last resolution of the majority report, admitting both delegations from Georgia, and dividing the vote of the State between them, with the provision that if either refused to take seats the remaining delegates shall cast the whole vote of the State. A division of the question was called for, so as to take a vote on each proposition separately. A long discussion ensued before the vote was taken.

Mr. Gardner, of Georgia, presented a letter from the National Democratic delegates from Georgia, and asked that it be read. [Cries of "Read!" "No, no!"]

Mr. Butterworth, of New York, objected.

Mr. Clancy, of New York, inquired if one objection would prevent the reading.

The President—It will in this stage of the proceedings. The gentleman from Georgia can rise to a question of privilege and read the communication, and the chair will then decide whether he is in order or not.

The call for a division of the resolutions was withdrawn, and the resolution was lost; 106½ to 145. New York voted in the negative.

The whole majority report was then adopted except the last resolution, dividing the State of Georgia between the original delegates and contestants, which was lost; 106½ to 145. New York voting no.

Mr. Church, of New York, then took the floor, and said, that the New York delegation have had no opportunity to vote on the case of Georgia, as they deemed justice to the Democracy of that State required. Coming here with an earnest desire to harmonize the Democracy of the Union, and act in a manner which will meet the approbation of Democrats all over the country, New York desires that the original delegation from Georgia be admitted to seats on this floor. He called for the previous question.

Mr. Seward, of Ga., raised a point of order, that the only motion in order was on the adoption of the resolutions already adopted as a whole.

The President decided that the previous question was excluded, and no vote on the adoption of the resolutions as a whole is necessary.

Mr. Hallett, of Massachusetts, rose to address the Convention.

Mr. Stuart, of Michigan, raised a point of order that Mr. Hallett was not a member of this Convention.

Mr. Hallett. A motion to reconsider the vote rejecting me was made by the gentleman from Michigan.

The President ruled that the resolutions already adopted by the Convention, were under operation of motions to reconsider and lay on the table. The Chair could not know whether the Convention would lay the motion to reconsider on the table. He did not, therefore, consider the gentleman from Massachusetts yet excluded from the Convention.

Mr. Church raised a point of order, that he had called for the previous question and therefore no debate was in order.

The President so decided.

Mr. Hallett appealed to Mr. Church to withdraw his call for the previous question.

Mr. Avery, of North Carolina. The author of the Cincinnati platform is surely entitled to be heard in this Convention. [Laughter and applause.]

Mr. Hallett. Sir, I have fought enough for New York to entitle me to this courtesy. The soldier of a hundred battles ought to retire with the honors of war.

Mr. Cessna, of Pennsylvania. I raise the point of order that the Congress of the United States refused to copyright the Cincinnati platform, and, therefore, the gentleman is not entitled to consideration on that account. [Laughter and applause.]

Mr. Church not withdrawing his demand for the previous question, it was ordered, and the resolution admitting the Charleston delegates from Georgia was adopted.

Mr. Hallett, of Massachusetts, then took the floor. He moved to reconsider the ninth resolution.

A number of points of order were raised, and a warm skirmish took place.

Mr. Smith, of Wisconsin, raised a point of order that Mr. Hallett had never been a delegate in the Convention. Mr. Chaffer was the delegate recognized and admitted to the Charleston Convention, and Mr. Hallett's name does not appear on the record.

Mr. Hallett desired to speak on a point of order. He was a delegate, regularly appointed, and being detained by sickness in his family, had requested Mr. Chaffer, as his substitute, to attend. He had prepared papers for that purpose in the sick chamber of his wife, without trouble to Mr. Chaffer, and probably without his being able to understand them.

Mr. Stuart and others called Mr. Hallett to order, and considerable confusion existed until the chair awarded the floor to Mr. Hallett.

Mr. Stuart, of Michigan, moved to lay the vote to reconsider on the table.

Mr. Cochrane moved that when the Convention adjourn it be till 7 o'clock.

A vote by States was demanded on this resolution, and declared lost—ayes, 82½; nays, 168.

Mr. Cessna called for the consideration of the motion to reconsider the several propositions—which was adopted—and also to lay these motions on the table.

Mr. Vanderford, of Maryland, moved that when the Convention adjourn it be *sine die*. Declared out of order.

The question was then put, first on the motion to lay on the table the motion to reconsider the vote by which the minority report of Mr. Stevens, of Oregon, was rejected. The Convention refused to lay the motion of reconsideration on the table by 113½ to 138½, New York voting no amidst the most intense excitement.

Mr. Cochrane then rapidly put the motion for a recess till 7 o'clock, which was carried, amidst the consternation of the Northwestern men and the reviving hopes of the South.

EVENING SESSION.

The Convention reassembled at 7 o'clock with a crowded audience. Much interest was excited by the proceedings, and heightened by the prevalence of a report that Mr. Douglas had telegraphed to withdraw his name, which was known only by a few.

As soon as the Convention was called to order quite a congressional struggle for the floor took place. Messrs. Saulsbury, of Del., Cessna, of Pa., and Gorman, of Minn., rising simultaneously, the floor was given to Mr. Saulsbury, who corrected the vote of Delaware, as given in the evening papers. They represented Delaware as voting for the admission of the Soule delegates from Louisiana. The Delaware delegation did not so vote, but voted for the admission of the original delegates.

Mr. Cessna next obtained the floor and moved the previous question on the motion pending, which was to reconsider the vote by which the Convention rejected the minority report of Mr. Stevens, of Oregon. The Convention ordered the previous question. The motion to reconsider the vote was then lost; 149 against 103. New York voting in the negative. [Immense applause.]

The motion to reconsider the several resolutions adopted at the morning session was then laid on the table.

Mr. Cessna moved to proceed to ballot for a President and Vice President of the United States, and on that called the previous question.

Mr. Russell, of Virginia, Stansbury, of Maryland; and Mr. Henry, of Pennsylvania, rose at the same time.

Mr. Henry moved to adjourn *sine die*.

Mr. Stanton made the same motion. There was much excitement.

Mr. Stuart, of Michigan. I rise to a point of order that the motion cannot now be entertained.

The President. The motion to adjourn *sine die* is in order. New York and several other States called for a vote by States.

The motion to adjourn sine die was withdrawn.

Mr. Moffat, of Virginia, asked if the Chair would now issue tickets to those delegates admitted by the action of the Convention.

The President announced that he was about to give such directions to the Sergeant-at-Arms.

Mr. Russell, of Virginia, took the floor. The time has now arrived when it becomes his duty to——

Mr. Gorman, of Minnesota, arose amid much excitement. He raised the point of order of the previous question, and seconded it. It must be put before the debate.

Mr. Russell considered what he had to say as a matter of privilege, under the action of the Convention on questions arising out of the report of the Committee on Credentials. The action had become final, completely irrevocable, and it became the duty of the delegates from Virginia to inform the Convention that it was not consistent with their sense of duty to their constituents to participate in the deliberations. (Applause, which was checked by the Chair.)

A Voice—Ah, let them cheer treachery and disunion to their heart's content.

The excitement and confusion was with difficulty checked by the Chair.

Mr. Russell continued—They had taken this step after mature deliberation, and after exhausting all honorable efforts to avoid this necessity. In addition to the facts which appear upon the record, he desired to state that the delegates to whom were just ordered tickets to be issued, some of them at least would not join in the deliberations of the Convention. The reasons that induced them to take this important step would be rendered to their constituents, and they only had to bid the Convention a respectful adieu.

Twenty-four delegates from Virginia then withdrew from the Convention, leaving six remaining.

Mr. Moffett, of Va., stated the reasons why he did not withdraw from the Convention. He was appointed by a District Convention to which he owes allegiance. They elected him to come here, not to go elsewhere; he was elected to the National Democratic Convention and no other; he was to represent his constituents in the Convention, but not to withdraw from it; to carry out the wishes of the people, who are national, not sectional; to promote the interest of the Union, not risk its disseverance. [Applause.]

Mr. Moffet was called to order, and yielded the floor to Mr. Lander, of North Carolina, who announced that the majority of the North Carolina delegates, on account of what they conceived to be an outrage perpetrated upon the people of the South, would withdraw from the Convention. Northern Democrats had heretofore given fair play to the South, but they did so no longer. He therefore announced that eight of the delegates would retire.

Mr. Ewing, of Tennessee, said the delegates from that State had exhibited in that Convention, as far as possible, every disposition to harmonize the labors of the Convention and bring them to a happy result. They were the first to propose resolutions and harmonize the platform. They had a candidate dear to them, and had cast him away to harmonize the Convention. As a unit, the delegation now asked leave to retire temporarily for consultation as to what their future action should be.

Mr. Caldwell, of Kentucky, on the part of a portion of the delegation from that State, desired to say that circumstances have arisen which make it doubtful in the minds of the delegation whether they can consent to continue with this body. They had come here to nominate a candidate acceptable to all the Union; this it appeared now to be doubtful in view of the process of dissension which had been going on. They did not wish to retire from the Convention on any technical grounds, but did not wish to participate in making new motions not acceptable to all parts of the Union. They were not yet prepared to withdraw from the Convention, but asked leave to retire for consultation. Leave was granted.

☞ At this point the Soulé delegation, from Louisiana, entered the hall amidst applause and took seats.

Mr. Johnson, of Marylad, on the part of six delegates from Maryland, declined to act with a Convention that preferred a man to principles. [Loud cries of Order.] States had been disfranchised by the adoption of the unit rule till it becomes inconsistent with honor to remain. Cherishing, with warm remembrances the good deeds the Democracy had formerly done for the South they bid them farewell with regret.

Mr. Glass, of Virginia, had not agreed with his colleagues in their secession, but desired, nevertheless, to decline further action with the Convention without joining any seceding bodies.

Mr. Walker, of Tenn., was a member of the Baltimore Convention twenty years ago. Since that time he had voted for every Democratic candidate for President and every Democratic candidate in his bailiwick. He should be the last to leave the ship, and having voted for twenty years, he announced to the Convention that if he lived till the next Presidential election he should vote for the nominee of this Convention. [Loud applause.] He was proud to find by his side many delegates from Tennessee actuated by the same feeling. There are many gallant hearts from the land of Jackson who will maintain their ground. He referred to the action of the State Convention of Tennessee, which, laboring for hours to adopt a platform to harmonize all parts of the country, had passed a resolution naming Gov. Johnson as their first choice for President, but pledging the State to give its hearty support to the nominee of the party, whether he came from the North or South, provided he can cordially indorse the Cincinnati platform. He had no fears that this Convention will nominate a candidate who can not indorse the Cincinnati platform. He proceeded to extol the Northern Democrats for their fidelity to the Union and to the whole country, and to declare that he would never endeavor to crowd on them a weight to crush them. The Tennessee delegation had not yet formally withdrawn from the Convention, and he hoped better counsels would prevail.

Mr. Jones, of Tennessee, followed, charging that the Southern States had originally intended to bolt on the platform; they had no sooner gone out than they offered to unite on a candidate, provided one man was not nominated. It was no fight for principles, but a proscriptive fight against an individual man. He boasted, in the course of his remarks, that he had been a Democrat from the time he drew milk from his mother's breast. [Laughter.] He should never desert the Democratic party.

XXXVIth CONGRESS—FIRST SESSION

Friday's Proceedings.

WASHINGTON, June 22.—SENATE.—Mr. Latham offered a resolution directing the Secretary of the Senate to pay the remainder of the salary of the late Senator Broderick to his assignees—referred.

The House bill for the relief of the Eighth Congressional Township in Randolph county, Ill., was passed.

Much confusion ensued, many Senators being on the floor at once, making separate motions.

Mr. Mason moved to proceed to Executive session. He believed that, unless this day was spent in considering Executive business, the Senate would be detained here all next week.

Messrs. Yulee and Trumbull thought that Legislative business should be finished before the Executive business, as the latter could go over till the next session.

The motion to go into Executive session was defeated, there being but one vote in the affirmative.

Mr. Fitch reported a resolution supplementary to the one already passed, providing that the Secretary of the Interior shall contract for the erection or purchase of a Government Printing Bureau instead of the Superintendent of Public Printing, as provided in the recent law passed.

The $20,000,000 loan bill passed.

The Committee of Conference on the Legislative Appropriation bill, reported that they had agreed to debate on the California mail service without action.

Recess taken till 6 o'clock.

HOUSE.—Mr. Morris, of Illinois, asked, but failed to obtain, leave to introduce a resolution providing for a committee of three to investigate during the recess all the facts relative to Mr. Fowler's defalcation.

On motion of Mr. Burch, the unfinished business was transferred to the next session.

The House passed the resolution—86 against 62—reported on Wednesday by Mr. Gurley, from the Committee on Printing, as amended by Mr. Burnett.

Mr. Alling, from the Committee on Postoffices, reported a bill authorizing a postal contract from New Orleans or Mobile around the Mexican Gulf, touching at twelve ports, according to Mr. Butterfield's proposition, which was referred to the Committee of the Whole on the State of the Union.

Mr. Washburne, of Illinois, from the Committee of Conference on the Postoffice Deficiency bill, stated that they were unable to agree, and asked to be discharged from further service, and that the House insist on its amendments, with verbal alterations restoring the inland service discontinued March, 1859, except where the same expired by limitation or improved the service furnished by railroad or otherwise, retaining the Isabel steamer contract clause; the Postmaster-General to be debarred from discontinuing or curtailing the service in accordance with the existing laws.

Mr. Wiles said it was almost certain that the Senate would not agree to the House amendment.

Mr. Washburne had every reason to expect a favorable result. His motion was agreed to. Ayes 85, nays not counted.

The Loan and Treaty bill, a synopsis of which has heretofore been given, was passed. Ayes 88, nays 77.

Several private bills were passed and the House adjourned.

From New York.

NEW YORK, June 22.—Private letters have been received from Isaac V. Fowler, dated Havana, June 13th. The Pike's Peak story is a humbug.

A Mrs. Gaw was nearly murdered by her husband this morning. He threw vitriol in her face. Both were actors. Cause—jealousy.

Mr. O. S. Wood, one of the oldest and most accomplished telegraphers in this country, who for several years has had the management of the Canadian lines, went to Europe on business connected with his profession. During his sojourn in London, Mr. Wood made many inquiries touching the prospects of the newly projected telegraph cable line between England and America, *via* Greenland and Ireland. The result of his inquiries he sums up in the subjoined paragraph, which is extracted from one of his letters to his friends in this country:

> They, the new company, will accomplish nothing except making surveys. We shall never see Europe and America connected by telegraph *via* Greenland and Iceland. The more inquiries I make, the better am I satisfied that we will soon have a direct line working successfully across the Atlantic, and I hope you may live many years after it is accomplished.

Mr. Wood strongly deprecates the difficulty which has recently sprung up between the press of the United States and the American Telegraph Company, in consequence of the extraordinaay measures of the latter, and predicts that the inevitable result of the quarrel will be the establishment of rival lines throughout the country.

From Washington.

WASHINGTON, June 22.—The Postoffice Deficiency and Post Route bills are the only ones of a general public character now pending between the two Houses, with the exception of the Tariff. All the Pennsylvania Representatives present, except Mr. Dimmick, voted against the Loan bill, and three Democrats only recorded their names in the negative, viz: Messrs. Cobb, Florence, and Morris, of Ills. The affirmative was a mixed vote of all the parties. The Senate passed the bill after it left the House.

Congress has changed the title of purser to that of paymaster in the navy. The British navy adopted this title some years ago.

E. G. Bayler has been confirmed as consul to Cologne.

New Hampshire Legislature.

CONCORD, N. H., June 42.—The New Hampshire Legislature has adjourned till Monday afternoon. Mr. Shirley, of Andover, and Mr. Bernard of Franklin, members of the House, came near a personal knock-down to-day, the latter accusing the former of uttering a falsehood. Mr. Shirley, who is a leading Democrat, remains in town to answer any written request from Mr. Bernard.

American Telegraph Company.

NEW YORK, June 22.—The Herald, Journal of Commerce, &c., contain editorials strongly condemnatory of the executive committee of the American Telegraph Company for their extraordinary demands and threats against the press, and urges stockholders to come forward at their meeting next Thursday, and rescue their property from the certain destruction of the mad men who control it.

U. S. Sloop-of-War Saratoga.

CAPE ISLAND, N. Y., June 22.—A large ship, supposed to be the U. S. sloop-of-war Saratoga, from Vera Cruz, passed in last night for Philadelphia.

From Baltimore.

BALTIMORE, June 21, 10, P. M.—After a very warm discussion, the New York delegation have agreed to support the whole majority report, except, probably, in the case of Georgia, on which they may vote to admit the whole original delegation. This settles the question, and to-morrow, if the seceding delegations refuse to take seats, which is probable, the whole vote of the State will be cast by the contestants, and Douglas will be nominated by a two-thirds vote.

New York follows suit in the way of personal difficulties. A quarrel has arisen between John Clancy and Wm. H. Ludlow, the former charging the latter with treachery to Douglas. Some warm personal remarks passed, for which Clancy holds Ludlow personally responsible, and sends him to-night a warlike message. Should this not be responded to, a personal collision is talked of by Clancy.

From Richmond.

RICHMOND, June 22.—The Seceding Convention met and adjourned.

Forgeries.

BOSTON, June 22.—The Exchange Bank yesterday paid $19,200 on a forged check, and the Safety Fund Bank $1,800 on similar paper. The forgeries were made in the names of J. W. Davis and Mathew Bolles, bankers.

Cricket Match.

ALBANY, June 22.—St. George's Club beat Albany County Club to-day. St. George's first innings 35, second innings 112—total 147. Albany County first innings 58, second innings 34—total 92.

Commercial.

OFFICE LOUISVILLE COURIER,
FRIDAY EVENING, June 22, 1860.

In financial circles there is no change of importance to notice. The demand for money is small, and it is readily met by our Bankers at the usual rates. There is no change in Exchange.

In the general markets, we have a continued dullness to report in Flour, with but a small demand at $5 75@$6 50 for superfine to extra.

As yet there is but little Wheat arriving, and the market is unsettled, and it is impossible to set any quotation for New; we quote Old nominal at $1 25@$1 35 for prime to choice Red and White.

For Corn there is a good demand, but the sales are limited at 62@65¢ for mixed and prime white shelled sacks included. There is nothing doing in ear.

The Grocery market was very quiet but firm. The demand for Sugar is small, being only for home consumption. The sales were made at 8½@8¾¢. There was some inquiry for Molasses, with fair sales at 43¢ for barrels. We quote half barrels at 46¢.

Coffee is quiet at 14@14½¢ for prime Rio. Jamaica is selling at 13½¢.

The Provision market was very firm but quiet, with small sales of Mess Pork at $18 50. The transactions in Bacon are small, at 8½¢ for Shoulders; 10½¢ for Rib Sides; 11¢ for Clear Rib; and 11¾¢ for Clear Sides. There was but little doing in Hams at 12@12½¢ for plain canvassed. There is nothing doing in Lard.

In regard to the markets at Cincinnati, we take the following from the Gazette of to-day:

> Flour was held firmly to-day, but sellers were free at the asking prices, with a very moderate demand. Fresh ground superfine cannot be bought below $5, but old is not salable at that figure. Extras range from $5 10@$6. The New York market is pretty strong, with a good export demand, 16,000 bbls having sold for shipment to-day, but prices there are still relatively below our currency. The latest advices from Europe are favorable to a continued fair demand from that country at present quotations.—The receipts at this port are very light, only 359 bbls during the last 24 hours. The shipments the same time were 1,064 bbls. Wheat was firm at $1 23@$1 25 for White and $1 14@$1 16 for Red. No change in Corn. Oats were dull at 36@37¢. Mess Pork is dull at $18. Some holders ask more, but it would, we think, be easier to buy than to sell at the price named. Very little doing in Bacon, there being considerable difference between buyers and sellers. Shoulders are to be had, to a limited extent, at 8¼¢, though generally held at 8½¢. A few small lots Sides sold at 10@10½¢—they are generally held at 10½¢. Nothing done in bulk meats. Lard is buoyant.—About 800 tierces have been bought this week at 11½@12¢, including 430 tierces in two or three lots, yesterday and to-day, at 12¢. Barrel would bring 11½¢, and it is held at 11¾. A sale of 1,000 kegs at 13. The purchase was made by a Spanish house for the Havana market. There is a moderate trade demand for Groceries and prices are steady.

The yield of Wheat throughout this State though small will be considerably larger than was at first expected, though in some portions not worth the cutting. The crop throughout this State will not be half an average yield, but in all the other Wheat growing States it promises to be larger than last year. The Corn looks exceedingly well, and the yield this season, it is thought, will greatly exceed that of any previous season. There is more ground planted in Corn than for some years past, and the yield to the acre will be larger and better, so that we can look for plenty of Corn next season.

FLOUR AND GRAIN.—Sales of 150 barrels flour at $5 75@$6 25; 140 bushels corn at 65c for white shelled, sacks included; 70 bushels white wheat at $1 30.

BAGGING AND ROPE.—Sales of 150 coils Hunt's rope at 8c; 300 pieces power loom bagging at 15c.

CHEESE.—Sales of 30 boxes new W. R. at 7¾@8c.

GROCERIES.—Sales of 19 hhds sugar at 8¾@8⅞c; 160 bbls molasses at 43c; 66 bags Jamaica coffee at 13½c; 10 tierces rice at 5½c.

PROVISIONS.—Sales of 28 bbls mess pork at $18 50; 10 casks shoulders at 8½c; 20 tierces hams at 12@12½c.

TOBACCO.—The sales at the warehouses Friday amounted to 81 hhds, viz: 3 at $1 25@$1 85; 2 at $2@$2 75; 16 at $3@$3 95; 9 at $4@$4 65; 10 at $5@$5 95; 9 at $6@$6 95; 11 at $7@$7 90; 6 at $8@$8 80; 2 at $9@$9 10.

TELEGRAPH MARKETS.

NEW YORK, June 22—M.

Ashes—market steady; sales of 600 bbls at $5 25 for pot and $5 25 for pearl. The receipts of flour were 13,524 bbls; the market is 5@10¢ better, but demand less active with sales of 14,000 bbls at $5 25@5 35 for superfine State, $5 50@5 60 for extra State, $5 25@5 35 for superfine Western, $5 40@5 60 for common to medium extra Western, $5 65@5 80 for inferior to good shipping brands extra Round Hoop Ohio—Canadian flour less active but more firmer; sales of 1,800 bbls at $5 55@7 50. Rye flour steady; sales at $3 50@4 25. Receipts of wheat 2,861 bushels; market 1@2¢ better, but demand nothing like so active; sales of 34,000 bushels at $1 29 for Chicago spring, $1 31½@1 33 for Milwaukie club, $1 35 for red Illinois, $1 42½ for winter red Western, $1 45@1 50 for white Indiana, and $1 47@1 40 for good white Canadian.—Rye heavy and lower; sales of 500 bushels Canadian at 83¢. Barley dull and nominal. Corn—receipts 29,630 bushels; market a shade better, sales of 45,000 bushels at 83½¢ for unsound, 65@66¢ for sound mixed Western. Oats dull at 37@41¢ for Canadian, Western and State. Pork quiet and firm; sales 537 bbls at $17 50 for old mess, $18 20@18 30 for new mess, $12 80 for old prime, $13 62 for green prime. Beef quiet and unchanged; sales 325 bbls. Cut meats are steady; sales 39 pkgs. Lard in good demand; sales 600 bbls at 11½@12½. Butter in fair request at 10@16¢ for Ohio, 10@20¢ for State. Cheese steady at 7@10½¢. Whisky—market a shade better; sales 600 bbls at 21½¢.

CINCINNATI, June 22—P. M.

Flour unchanged and irregular with moderate demand for the higher grades; lower continue dull; sales 1,000 bbls low extra at $4 75. Good fresh ground extra to extra family range from $5 10@5 75: $4 75 was offered and refused for good superfine fresh ground. receipts are light. Whisky unchanged and steady at 17½¢. No change in provisions and nothing done of importance; holders remain firm at extreme rates.—Mess pork is held at $18@18 25, with buyers at $17 75@18. Bacon is held at 8@10½¢, and in some cases sides are held at 10½¢; a moderate inquiry for bulk sides at 9¢, but they are held at 9½@9⅞. Lard quiet at 11¾@12¢. Groceries steady. No change in grain—wheat in good demand at full prices and very little offering. Oats dull at 36@37¢.

NEW YORK, June 22—P. M.

Flour—good demand but checked by the advanced prices insisted on by holders; sales at 5 25@5 25 for super State and Western, $5 50@5 60 for extra State, $5 45@5 65 for common to medium extra Western.—Whisky a shade firmer at 21½¢. Wheat 1@2¢ better—advance in price and in freights restrict business;—red Illinois $1 35, white Indiana $1 45@1 20, mixed red Western $1 40@1 42½. Rye heavy and lower at 83¢. Barley unchanged. Corn firmer and moderate demand; 70¢ for round yellow and 77½ for white Southern. Oats heavy. Pork quiet but very firm at $18 25@18 30 for new mess. Cut meats steady at 7¼@7½¢ for shoulders, 9@9½¢ for hams. Bacon nominal. Lard firmer at 11¾@12½.

Molasses depressed and 2@3¢ lower than at the close of last week; sales of 45 hhds Barbadoes at 35¢, and by auction 60 hhds at 44¢; 65 hhds Porto Rico at 26¢ cash. Sugar very heavy but not quotably changed; sales to-day 40 hhds Cuba at 6½.

NEW ORLEANS, June 22—P. M.

Cotton dull; sales to-day 200 bales; Orleans middling 10¾@11¼. Sales of the week 11,000 bales.—Receipts last week 2,500 bales against 1,900 bales last year. Exports 4,600 bales. Total 2,156,000 bales.—Receipts ahead of last year 461,000 bales. Receipts at all Southern ports ahead of last year 792,000 bales. Stock at New Orleans 78,000 bales. Sugar quiet.—Flour has advanced 25¢; sales at $5 25@5 50. Corn advanced 4@5¢; sales at 62@75¢. Coffee firm at 13@14¢. Sales of the week 3,500 bags. Stock at New Orleans 11,000 bags against 31,000 bags last year.—Freights of cotton to Liverpool 15-32d.

NOW IS THE TIME TO BUY GREAT BARGAINS IN
Boots, Shoes, and Gaiters,
AND "MERWIN & GALE'S" IS THE PLACE!

They have a large stock of seasonable and fashionable SHOES and GAITERS, which they are desirous to sell off in a hurry, and in order to do so have determined to offer greater inducements than ever.

Purchasers will find it to their advantage to give them a call, as they are determined to sell all styles of Ladies', Gentlemen's, Misses', Children's, Boys', Youths' and Servants' Shoes, much cheaper than any other house in the city. Buying their goods directly from the manufacturers, and doing strictly a cash business at a very small expense, enables them to compete successfully with any one in Louisville.

To be convinced of the fact, call and see for yourselves.
